## 1.0 Executive Summary

MTE Consultants Inc. (MTE) was retained by Greenwin Corp. to conduct a Phase One Environmental Site Assessment (ESA) for the properties located at 18, 20, 22, 24 and 28 Elizabeth Street North and 31 & 33 George Street North in Brampton, Ontario (the “Phase One Property” or “Site”).

The Phase One ESA was completed in accordance with the requirements of Ontario Regulation (O.Reg.) 153/04. The purpose of the Phase One ESA was to identify actual or potential contamination on the Site based on the evaluation of information collected through a historical records review, Site visits and interviews. The Phase One ESA report was prepared under the supervision of a Qualified Person (QP<sub>ESA</sub>) to support the future filing of a Record of Site Condition.

### Phase One Property Description

The Phase One Property is approximately 0.61 hectares (1.50 acres) in area and is located on the south side of Nelson Street West between Elizabeth Street North and George Street North in a mixed residential and commercial area of Brampton. The Phase One Property consists of six adjoining properties, including: a multi-tenant residential dwelling with associated gravel parking areas and landscaped areas at 28 Elizabeth Street North; four single family residential dwelling properties at 18-24 (even) Elizabeth Street North; and a multi-tenant commercial building with associated asphalt parking area and second floor residential units at 31 & 33 George Street North. The eastern portion of the Site (east of the residential dwellings fronting Elizabeth Street) slopes downward approximately 3-4m from the western portion of the Site and includes mature trees and grassed area.

### Phase One Property History

Historical records indicated that the 31 & 33 George Street North and 24 Elizabeth Street North portions of the Site were developed with residential dwellings sometime prior to 1857. The dwellings at 31 & 33 George Street North were demolished sometime prior to 1894 and this portion of the Site remained vacant until the early 1960s when the current commercial building was built. The original dwelling at 24 Elizabeth Street North was demolished sometime between 1917 and 1940 when the current dwelling was constructed.

The properties at 18, 20, 22 and 28 Elizabeth Street North were vacant land until the current residential dwellings were constructed in the 1940s (18 and 22 Elizabeth), 1900s (20 Elizabeth) and 1890s (28 Elizabeth).

The Site has remained in its current configuration since the 1960s. The commercial building at 31 & 33 George Street has been occupied by a number of retail businesses and restaurants. The Elizabeth Street properties have remained residential with some converting to multi-tenant residential within the same dwelling.

### Proposed Future Use

The proposed future use of the Phase One Property is a new residential condominium development.

## Areas where Potentially Contaminating Activity on or potentially affecting the Phase One Property has occurred

The results of the Phase One ESA identified Potentially Contaminating Activities (PCAs) listed in Table 2 of Schedule D of O.Reg.153/04, and other PCAs on the Phase One Property, which resulted in Areas of Potential Environmental Concern (APECs). The on-Site PCAs included:

- The presence of fill material of unknown quality;
- The use of fuel oil stored in tanks for the heating of current on-Site dwellings located at 18, 20, 22 and 24 Elizabeth Street North; and
- The former storage and use of coal for heating of the current on-Site dwelling located at 28 Elizabeth Street North.

The Phase One ESA also identified multiple PCAs in the Phase One Study Area that were considered to result in APECs on the Site. The off-Site PCAs were associated with a former printing and graphic design business, a former machine shop, a property with known petroleum hydrocarbon soil impacts, a former eyewear manufacturer where glass and metal products were manufactured, a former auto related business, a hydroelectric station, a former coal gasification plant, historical ink storage and use and former equipment/metal product manufacturers.

The detailed list of on-Site and off-Site PCAs and resulting APECs on the Site is included in the PCA Summary Table in **Appendix I** of this report.

## Conclusions

The results of the Phase One ESA identified APECs on the Site. A Phase Two ESA is therefore required before a Record of Site Condition can be filed.

## Potential Phase One ESA Limitations

At the time of writing this Phase One ESA report some responses to information requests from the MECP and Region of Peel had not been received.

## 2.0 Introduction

### (a) Phase One Property Information

MTE Consultants Inc. (MTE) was retained by Greenwin Corp. to conduct a Phase One Environmental Site Assessment (ESA) for the properties located at 18, 20, 22, 24, 28 Elizabeth Street North and 31 & 33 George Street North in Brampton, Ontario (together the “Phase One Property” or “Site”).

The Phase One Property is approximately 0.61 hectares (1.50 acres) in area and is located on the south side of Nelson Street West between Elizabeth Street North and George Street North in a mixed residential and commercial area of Brampton. Refer to **Figure 1** for the Site Location.

The Phase One Property consists of six adjoining properties, including: a multi-tenant residential dwelling with associated gravel parking areas and landscaped areas at 28 Elizabeth Street North; four single family residential dwelling properties at 18-24 (even) Elizabeth Street North; and a multi-tenant commercial building with associated asphalt parking area and second floor residential units at 31 & 33 George Street North. The Site Layout and Features are illustrated on **Figure 2**.

The Phase One ESA was commissioned by Greenwin Corp. (Greenwin), who also owns the Site under Elizabeth/George Holdings Inc. The contact information for Greenwin and Elizabeth/George Street Holdings Inc. is as follows:

Greenwin Corp.  
19 Lesmill Road  
Toronto ON, M3B 2T3  
Contact: Mr. Mark Zaky  
Email: MZaky@greenwin.ca

The legal descriptions and Property Identification Numbers (PINs) are as follows:

Municipal Address	Property Identification Number (PIN):	Legal Description:
28 Elizabeth Street North and 31 & 33 George Street North	14123-0081(LT)	Lot 10, Block 2, Plan BR-4; Brampton South of Nelson Street; Lot 11, Block 2, Plan BR-4; Brampton South of Nelson Street; Part of Lot 7, Block 2, Plan BR-4; Brampton South of Nelson Street; Part of Lot 8, Block 2, Plan BR-4; Brampton South of Nelson Street; Part of Lot 9, Block 2, Plan BR-4; Brampton South of Nelson Street; Part of Lot 12, Plan BR-4; Brampton South of Nelson Street; As In VS296767; S/T VS171756; S/T RO794348; City of Brampton, Regional Municipality of Peel, Land Titles Division of the Peel Land Registry Office (No. 43)
24 Elizabeth Street North	14123-0305(LT)	Part Lot 12, Block 2, Plan BR-4 Brampton, being Part 1, Plan 43R-11278, City of Brampton, Regional Municipality of Peel, Land Titles Division of the Peel Land Registry Office

Municipal Address	Property Identification Number (PIN):	Legal Description:
		(No. 43)
22 Elizabeth Street North	14123-0306(LT)	Lot 13, Block 2, Plan BR-4 Brampton, being Part 2, Plan 43R-11278, City of Brampton, Regional Municipality of Peel, Land Titles Division of the Peel Land Registry Office (No. 43),
20 Elizabeth Street North	14123-0084(LT)	Part Lot 14, Block 2, Plan BR-4 Brampton East of Elizabeth Street as in RO736034, City of Brampton, Regional Municipality of Peel, Land Titles Division of the Peel Land Registry Office (No. 43)
18 Elizabeth Street North	14123-0085(LT)	Part Lot 15, Block 2, Plan BR-4 Brampton East of Elizabeth Street as in RO912833, Subject to easement over Part 6, Plan 43R-32143, in favour of Lots 23, 24, 25, and Part Lots 14, 15, 16, 17 and 26, Block 2, Plan BR 4, as in RO1127508, as in PR1491526, City of Brampton, Regional Municipality of Peel, Land Titles Division of the Peel Land Registry Office (No. 43),

For ease of discussion, all directions in this Phase One ESA report are in reference to project north as depicted on **Figure 2**, unless otherwise specified.

It is noted that the Ontario Ministry of the Environment, Conservation and Parks (MECP) was previously named the Ontario Ministry of the Environment (MOE) and the Ontario Ministry of the Environment and Climate Change (MOECC). For ease of discussion in this report, “MECP” is used to represent this provincial ministry and is inclusive of MOE and MOECC.

### 3.0 Scope of Investigation

The Phase One ESA was completed according to MTE’s proposals for services dated October 5, 2021. The assignment was completed by MTE between November 2021 and March 2022 according to Reference Number 46372-101. The report was prepared under the supervision of a Qualified Person (QP<sub>ESA</sub>) to support the future filing of a Record of Site Condition.

The scope of work for the Phase One ESA included:

- Review of available fire insurance plans (FIPs), inspection reports and property ownership documentation.
- Review of municipal directory records related the Phase One Property.
- Review of Chain of Title and Abbreviated Parcel Register documents.
- Review of environmental source information including published and online records from the MECP, Ministry of Natural Resources and Forestry (MNRF), Environment and Climate Change Canada (ECCC), Technical Standards and Safety Authority (TSSA),

Toronto and Region Conservation Authority (TRCA), Region of Peel and City of Brampton for the Phase One Property and the Phase One Study Area.

- Review of Environmental Risk Information Services (ERIS) database report.
- Review of physical setting information including: aerial photographs, topography, hydrogeology and geology information and maps related to the Phase One Property and the Phase One Study Area.
- Interviews with persons knowledgeable about the Site.
- Site reconnaissance to observe the Phase One Property, adjacent properties and other properties within the Study Area as they could be viewed from the Phase One Property or public lands.
- Preparation of a Conceptual Site Model to describe and illustrate the Phase One Property, the Phase One Study Area, Potentially Contaminating Activities (PCAs) and Areas of Potential Environmental Concern (APECs) on the Phase One Property.
- Preparation of this Phase One ESA report in accordance with Schedule D of O.Reg.153/04.

## 4.0 Records Review

### (a) General

#### (i) Phase One Study Area Determination

The Phase One Study Area was identified in a manner consistent with the *Guide for Completing Phase One Environmental Site Assessments under Ontario Regulation 153/04*, dated June 2011 (PIBS 8485e). The Phase One Study Area for the Site reconnaissance and records review included the properties that are located wholly or partially, within 250 meters from the nearest point on a boundary of the Phase One Property. Refer to **Figure 4a** for the illustration of the Phase One Study Area.

#### (ii) First Developed Use Determination

In accordance with Part VI, Section 22.(1) of O.Reg.153/04, First Developed Use is “the earlier of the first use of the Phase One Property in or after 1875 that resulted in the development of a building or structure on the property and the first potentially contaminating use or activity on the Phase One Property”.

The Plan of the Town of Brampton dated 1857 was reviewed. The plan covers the Site, areas north, east, and south of the Site, and the area immediately west of Elizabeth Street. A structure (assumed residential dwelling) is observed at approximately 24 Elizabeth St. N, and two structures (assumed dwellings) are observed on the east portion of 31 and 33 George Street North, which are considered to be the First Developed Use of the Site. The properties to the north, east and west appears to be occupied by residential dwellings, while a large structure is observed in the northeast corner of Queen St. W. and Elizabeth St. N. A water body (old Credit River/Etobicoke River) is observed approximately 90m to the east of the Site.

### (iii) Fire Insurance Plans

Fire insurance plans were developed between 1875 and 1923 and were revised in some areas until the 1970s. Fire insurance plans may illustrate building construction and occupancy, as well as provide information regarding storage tanks, transformers, boilers and electrical rooms. Fire insurance plans may also depict the local street network and former municipal addresses.

MTE reviewed the following FIPs and Insurance Reports and surrounding properties, which were obtained from OPTA Information Intelligence through ERIS during a previous report (MTE, 2019) and through the Archives Association of Ontario (online – 1894 FIP). A copy of the OPTA report is included in **Appendix B**.

#### 1894 FIP

The 1894 FIP depicts the entire Site and majority of the Study Area. The FIP indicates that the existing buildings located at 28 Elizabeth Street North is in similar size and configuration as observed during the site visit. Additionally, a building is present on the 24 Elizabeth Street North portion of the Site that is not the present day building. The remaining portion of the Site appears to be vacant field. The areas to the north and west of the Site consisted of residential properties, and area to the south of the Site consisted of mixed residential and commercial properties. The Etobicoke River is depicted in its former alignment approximately 80 metres east of the Site.

The following properties of potential concern were identified within the Study Area:

Address and Occupant	Distance from Site	Observations
8 Elizabeth Street North (formerly 40 Elizabeth St. N.)	South adjacent	• Hydroelectric Station
14 Nelson Street West (formerly 30 Nelson Street West) (Silent Gas Works)	25m northeast	• Coal gasification facility with oil storage tank and coal bins
8-12 Nelson Street West and 36 George Street North (Formerly 20 and 24 George St. N.)	55m northeast	• A wood cutting facility and coal storage bins.
1 Nelson Street West (Formerly 1-2 Nelson Street West)	75m east	• Industrial building with machine shop, tinsmith, and paper box factory.
Grand Trunk Railway	120m north	• Railway line
60 Main Street North (formerly 6 Main Street North)	135m east	• Marble works
54 Main Street North (formerly 8 Main Street North)	150m east	• Cabinet shop
39 Queen Street West (formerly 6 Queen Street)	150m southeast	• Laundry (potential dry cleaner)
37 Queen Street West (formerly 25 Queen Street)	155m southeast	• Printing
18 Main Street North (formerly 22 Main Street North)	160m southeast	• Paints
2 Nelson Street East (formerly 116-120 Main Street North)	160m northeast	• Carriage Shop, wood working
6 Nelson Street East (formerly 10-14 Nelson Street East)	165m northeast	• planning mill and lumber shed

Address and Occupant	Distance from Site	Observations
1-11 Flowering Vine Lane (formerly 174-178 Park Street) (J. York and Sons)	180m west	<ul style="list-style-type: none"> <li>Sash and door manufacturing facility with a lumber shed and planning mill. Fuel sources include coal and refuse.</li> </ul>
56-60 Mill Street North (formerly 56 Mill Street North) (Copeland Chatterson Co. Ltd.)	240m northwest	<ul style="list-style-type: none"> <li>Ledger manufacturing facility with paper mill, machine shop and coal shed</li> </ul>

### 1917 FIP

The 1917 FIP depicts the entire Site and Study Area. The Site is shown as vacant in the central and eastern portions of the Site. Buildings similar in structure to the present day buildings are depicted at the 20 and 28 Elizabeth Street North portions of the Site. Additionally, a building is present on the 24 Elizabeth Street North portion of the Site that is not the present day building. The Study Area is depicted as a mix of residential, commercial/retail, community, institutional, railway and industrial properties. The Etobicoke River is depicted in its former alignment approximately 80 metres east of the Site. The following properties of potential concern were identified within the Study Area:

Address and Occupant	Distance from Site	Observations
8 Elizabeth Street North	South adjacent	<ul style="list-style-type: none"> <li>Hydroelectric Station</li> </ul>
14 Nelson Street West (formerly 30 Nelson Street West) (Silent Gas Works)	25m northeast	<ul style="list-style-type: none"> <li>Coal gasification facility with oil storage tank and coal bins</li> </ul>
8-12 Nelson Street West and 36 George Street North (formerly 20 and 24 George St. N.)	55m northeast	<ul style="list-style-type: none"> <li>A wood cutting facility and coal storage bins.</li> </ul>
1 Nelson Street West	75m northeast	<ul style="list-style-type: none"> <li>Knitting factory with coal heating.</li> </ul>
Grand Trunk Railway	120m north	<ul style="list-style-type: none"> <li>Railway line</li> </ul>
27 Main Street North (formerly 40 Main Street North)	125m east	<ul style="list-style-type: none"> <li>Tin smith</li> </ul>
8 Nelson Street West (formerly 1 Main Street North)	130m northeast	<ul style="list-style-type: none"> <li>Laundry (potential dry cleaner)</li> </ul>
49 Queen Street West (Formerly 145 Queen Street West)	130m southeast	<ul style="list-style-type: none"> <li>Laundry (potential dry cleaner)</li> </ul>
60 Main Street North (formerly 6 Main Street North)	135m east	<ul style="list-style-type: none"> <li>Marble works</li> </ul>
32 Queen Street West (formerly 27 Queen Street West)	140m southeast	<ul style="list-style-type: none"> <li>Implements and garage</li> </ul>
37 Queen Street West (formerly 25 Queen Street) (Conservator Printing Office)	155m southeast	<ul style="list-style-type: none"> <li>Printing office</li> </ul>
6 Nelson Street East (formerly 10-14 Nelson Street East) (J. Jones Carriage Shop)	165m northeast	<ul style="list-style-type: none"> <li>Carriage shop with planing mill and lumber shed</li> </ul>

Address and Occupant	Distance from Site	Observations
1-11 Flowering Vine Lane (formerly 174-178 Park Street) (J. York and Sons)	180m west	<ul style="list-style-type: none"> <li>Sash and door manufacturing facility with a lumber shed and planning mill. Fuel sources include coal and refuse.</li> </ul>
1 Main Street South (formerly 12 Main Street)	210m southeast	<ul style="list-style-type: none"> <li>'Laundry' (potential dry cleaner)</li> </ul>
56-60 Mill Street North (formerly 56 Mill Street North) (Copeland Chatterson Co. Ltd.)	240m northwest	<ul style="list-style-type: none"> <li>Ledger manufacturing facility with paper mill, machine shop and coal shed</li> </ul>

### 1940 FIP

The 1940 FIP depicts the entire Site and Study Area. The Site remains relatively unchanged from the 1917 FIP. The 24 Elizabeth Street North property is occupied by the assumed present day building and two sheds.

The Study Area is depicted as a mix of residential, commercial/retail, community, institutional, railway and industrial properties. The following properties of potential concern were identified within the Study Area:

Address and Occupant	Distance from Site	Observations
10 Elizabeth Street North (formerly 8 Elizabeth Street North)	South adjacent	<ul style="list-style-type: none"> <li>Hydroelectric Station</li> </ul>
23 George Street North	East adjacent	<ul style="list-style-type: none"> <li>Machine shop</li> </ul>
8-12 Nelson Street West (J.H. Conuber Wood Yard)	55m northeast	<ul style="list-style-type: none"> <li>Lumber yard with wood cutting, coal bins and office</li> </ul>
9 Nelson Street West	50m east	<ul style="list-style-type: none"> <li>Garage and automotive repairs with UST located under Nelson Street West</li> </ul>
50 Queen Street West (formerly 44 Queen Street West)	50m southeast	<ul style="list-style-type: none"> <li>Gasoline service station with oiling, washing and four USTs</li> </ul>
1 Diplock Lane (formerly 14 George Street North)	75m southeast	<ul style="list-style-type: none"> <li>Junk yard</li> </ul>
2 Nelson Street West	90m east	<ul style="list-style-type: none"> <li>Vulcanizing facility</li> </ul>
1 Nelson Street West	75m northeast	<ul style="list-style-type: none"> <li>Paper box factory.</li> </ul>
69 Queen Street West (The Peel Creamery)	90m south	<ul style="list-style-type: none"> <li>Cream processing facility with one UST</li> </ul>
41 George Street South (formerly 57 Queen Street West)	100m south	<ul style="list-style-type: none"> <li>Garage and automotive repairs with three USTs</li> </ul>
79 Queen Street West	100m south	<ul style="list-style-type: none"> <li>Pump repair</li> </ul>
32 Queen Street West (formerly 34 Queen Street West)	110m southeast	<ul style="list-style-type: none"> <li>Garage and automotive repairs with UST located under Queen Street West</li> </ul>
C.N. Railway	120m north	<ul style="list-style-type: none"> <li>Railway line</li> </ul>
80 Main Street North	140m east	<ul style="list-style-type: none"> <li>Laundry (potential dry cleaner)</li> </ul>

Address and Occupant	Distance from Site	Observations
131 Main Street North (formerly 117 Main Street North) (Morrison Motors)	140m northeast	<ul style="list-style-type: none"> <li>Garage with automotive repairs, tire vulcanizing and UST located under Main Street North</li> </ul>
131-135 Main Street North (formerly 125-129 Main Street North) (Peoples Fuel Co.)	150m northeast	<ul style="list-style-type: none"> <li>Oil storage facility with a gasoline service station, three USTs, oil warehouse, cement storage and two oil ASTs along rail line</li> </ul>
18 Main Street North (formerly 20 Main Street North)	160m southeast	<ul style="list-style-type: none"> <li>UST depicted under Main Street</li> </ul>
25-27 Queen Street West (Conservator Printing Office)	170m southwest	<ul style="list-style-type: none"> <li>Printing office</li> </ul>
2 Nelson Street East (formerly 116-120 Main Street North)	160m northeast	<ul style="list-style-type: none"> <li>Garage and gasoline service station with two USTs located under Main Street North</li> </ul>
6 Nelson Street East (formerly 10-14 Nelson Street East)	165m northeast	<ul style="list-style-type: none"> <li>Door manufacturing facility with planing mill and lumber shed</li> </ul>
122-130 Main Street North (formerly 128 Main Street North)	170m northeast	<ul style="list-style-type: none"> <li>Used car dealership with automotive repairs, oiling and three USTs</li> </ul>
2 Wellington Street West (formerly 24 Main Street South)	205m southeast	<ul style="list-style-type: none"> <li>Oiling garage with four USTs</li> </ul>
2 Wellington Street West (formerly 35 and 39 Main Street South)	220m southeast	<ul style="list-style-type: none"> <li>Garage and repairs with two USTs</li> </ul>
62 Park Street	240m west	<ul style="list-style-type: none"> <li>Coal and wood sheds along rail line</li> </ul>
11 Church Street West (formerly multiple addresses along Church Street)	240m north	<ul style="list-style-type: none"> <li>Coal sheds, oil warehouse, UST and garage</li> </ul>
56-60 Mill Street North (Copeland Chatterson Co. Ltd.)	240m northwest	<ul style="list-style-type: none"> <li>Ledger manufacturing facility with paper mill, machine shop and coal shed</li> </ul>

### 1971 FIP

The 1971 FIP depicts the entire Site and Study Area. The Site consists of a multi-tenant commercial building with second floor apartments in the eastern portion of the Site (with municipal addresses 31 and 33 George Street North, and 25A, 25B, and 27 Nelson Street West) and five residential dwellings located at 28, 24, 22, 20 and 18 Elizabeth Street North in the western portion of the Site.

The Study Area is depicted as a mix of residential, commercial/retail, community, institutional, railway and industrial properties. It appears that the Etobicoke River has been realigned, as it is no longer depicted in the eastern portion of the Study Area. The following properties of potential concern were identified within the Study Area:

Address and Occupant	Distance from Site	Observations
7-9 George Street North (Brampton Optical Co. Ltd.)	East adjacent	<ul style="list-style-type: none"> <li>Eyewear manufacturing with washing, polishing and grinding</li> </ul>
23 George Street North	East adjacent	<ul style="list-style-type: none"> <li>Printing</li> </ul>
10 Elizabeth Street North	South adjacent	<ul style="list-style-type: none"> <li>Hydroelectric Station with transformer</li> </ul>
36 George Street North	50m northeast	<ul style="list-style-type: none"> <li>Lumber yard with wood cutting, coal bins, rail spur and office</li> </ul>
50 Queen Street West	50m southeast	<ul style="list-style-type: none"> <li>Auto service with one UST</li> </ul>
10 Nelson Street West	90m northeast	<ul style="list-style-type: none"> <li>Used car and trailer sales and service with tire storage.</li> </ul>
69 Queen Street West (The Peel Creamery)	100m south	<ul style="list-style-type: none"> <li>Cream processing facility with one UST</li> </ul>
57 Queen Street West	100m south	<ul style="list-style-type: none"> <li>Vulcanizing and Tire Shop with one UST.</li> </ul>
C.N. Railway	120m north	<ul style="list-style-type: none"> <li>Railway line</li> </ul>

### 1996 Multi Risk Report

A 1996 Multi Risk Report was completed for 31 George Street North. The report stated that the two story building has a restaurant on the main floor and residential apartments on the second floor. The report states the building was built in 1966 with no additions or renovations at the time of the report. The building was heated via natural gas fired forced air units located on the roof of the building.

### 2010 Basic Survey Report

A 2010 Risk Basic Survey Report was completed for 31 George Street North. The report lists the building as a two story building with no basement. The building was reported to have been built in 1960 (which is noted to differ from the 1996 report). The building was heated via natural gas fired forced air units located on the roof of the building.

### **(iv) Chain of Title**

A Chain of Title search for the Phase One Property indicated that it was first transferred from the Crown to Mr. William Wood in 1822. The entire Site was then owned by multiple different individuals until it was subdivided as follows:

The 18 Elizabeth Street North portion of the Site was owned by various individuals and was vacant land until the 1940s when the current residential dwelling was built. The property remained owned by individuals until 1989 when it was purchased by an Anglican Church and remained residential. The property was then owned by three more individuals from 2015 to 2021 when it was purchased by the current owner.

The 20 Elizabeth Street North portion of the Site was owned by various individuals and was vacant land until the 1900s when the current residential dwelling was built. The property remained owned by individuals until 1985 when it was purchased by an Ontario numbered company (remained residential). The property was then owned by another Ontario numbered company from 2002 to 2018 and one more individual until being purchased by the current owner in 2021.

The 22 Elizabeth Street North portion of the Site was owned by various individuals and was vacant land until the 1940s when the current residential dwelling was built. The property remained owned by individuals until 2021 when it was purchased by the current owner.

The 24 Elizabeth Street North portion of the Site has been owned by various individuals from 1822 to 2017, when it was purchased by an Ontario numbered company before being sold to the current owner in 2021. The property is inferred to have been developed with a residential dwelling prior to 1857 which was demolished between 1917 and 1940 when the current dwelling was built.

The 28 Elizabeth Street North and 31 & 33 George Street North portion of the Site has been amalgamated into one property identification number (PIN). This portion of the Site was owned by various individuals from 1822 to 1944, with the exception of 1901-1902 when it was owned by The Independent Order of Foresters. During this time, there were two residential dwellings on the 31 & 33 George Street portion of the Site from prior to 1857 until sometime before 1894. Before 1894 the current residential dwelling was constructed at 28 Elizabeth Street North. This portion of the Site was then owned by Morrison Motor Sales Limited from 1944-1946, Arthur Morrison from 1946-1971 and Regal Motors Limited from 1971-1974. During this time period, the 31 & 33 George Street portion of the Site remained vacant until the early 1960s when the current commercial building was constructed. This portion of the Site was then owned by one individual from 1974 to 2020 when it was purchased by the current owner.

Copies of the Chain of Title search information and Abbreviated Parcel Registers are included in **Appendix C**.

### Municipal Directories

A search for municipal directories was completed through Environmental Risk Information Services Ltd. (ERIS), an environmental database and information service company, during a previous report (MTE, 2019) and using available public directories at the City of Brampton library. The directories search included 28 Elizabeth Street North and 31-33 George Street North for the period 1959 to 2000 (most recent directory) and 18, 20, 22, 24 Elizabeth Street North for the period 1973 (earliest directory available) to 2001 (most recent directory) in approximate five year intervals. Below is a summary of the pertinent information.

Address	Occupant/Directory Listing	Approximate Dates
18 Elizabeth Street North	Residential	1973-1986, 2001
	Not Listed	1991-1996
20 Elizabeth Street North	Residential	1973-2001
22 Elizabeth Street North	Residential	1973-2001
24 Elizabeth Street North	Residential	1973-2001
28 Elizabeth Street North	Address not listed	1959
	Multi-tenant residential	1966-2000
31 George Street North	Address not listed	1959-1966
	Brampton Home Décor Centre Paint Retail	1973
	The Wall Cover	1978
	Royal TV & Appliances Ltd.	1984
	Haggerts Rest	1989
	The Bus Stop Bistro	1994
	Gorgeous George Bar & Grill	2000
33 George Street North	Address not listed	1959
	LCBO	1966
	Vacant	1973
	Quartet Music Centre	1978-1984
	Tetra Music Ltd.	1978-1984, 1994
	Boswell's Quartet Music Centre	1989
	Quality Fresh Foods & Groceries	2000

Properties within the Study Area were identified as mixture of commercial retail, commercial office buildings and residential. The following is a summary of occupants of potential environmental concern within the Study Area:

Address and Distance	Occupant	Approximate Dates
27 George Street North (south adjacent)	Peel Auto Wholesale Ltd.	1966
14 Nelson Street West (25m northeast)	Ibis Manufacturing Inc. Isseco Inc.	2000
	Graphic Enterprises Word Pressing Centre	1989
	CEC Chinn Photogphy	1978
	Crosstown Transportation	1978

## (v) Environmental Reports

The following previous environmental reports were provided to MTE for review.

1. **“28 Elizabeth Street North and 31-33 George Street North, Brampton, ON, Phase I Environmental Site Assessment”**. Prepared for The Six Real Estate Development Inc. by MTE Consultants Inc., August 23, 2019.

A Phase I ESA was completed for 28 Elizabeth Street North and 31 and 33 George Street, the northern portion of the Site. The following is a summary of the key findings of the report:

- Historical Records indicate that the Site was first developed by the 1870s with a dwelling in the residential dwelling in the northwestern portion of the Site (28 Elizabeth Street North). 31 and 33 George Street North was first developed in the 1960s with a multi-tenant commercial building and further developed with second floor residential apartments in the 1980s.
- A former coal chute was observed in the basement boiler room of the residential dwelling of 28 Elizabeth Street North.
- Historical records indicated that a coal gasification service was located at the northeast corner of George Street North and Nelson Street West (25m north of the Site), in operation from approximately 1888-1917.
- A machine shop was observed at 23 George Street North (30m south of the Site) in the 1940 FIP.
- A junk yard was observed on a 1940 FIP at 14 George Street North (75m southeast).
- Historical metal fabrication at 37 George Street North (40m north).
- An automotive garage with UST was observed on a 1940 FIP at 9 Nelson Street West (50m east).
- 50 Queen Street West (50m southeast) was observed on the 1971 FIP as an auto service station with one UST.
- Automotive garages with retail fuel outlets were located at 34 Queen Street West (110m southeast)
- Former retail fuel outlets were noted at 115-177 Main Street North (140m northeast) and 116-120 Main Street North (160m northeast).
- Former door manufacturing at 174-178 Park Street (200m west).
- Former ledger and loose leaf paper manufacturing at 56-60 Mill Street North (240m

northwest).

- The report noted that, based on the age of the structures, there was a potential for designated substances or hazardous buildings to be present at the on-Site buildings. These materials included asbestos- and lead-containing materials, and mercury- and PCB-containing equipment.

The Phase I report did recommend a Phase II report based upon the above risks to the Site.

2. **“28 Elizabeth Street North and 31 and 33 George Street North, Brampton, ON, Phase II Environmental Site Assessment”**. Prepared for The Six Real Estate Development Inc. by MTE Consultants Inc., October 3, 2019.

A Phase II ESA was completed for the 28 Elizabeth Street North and 31-33 George Street North portion of the Site by MTE. The following is a summary of the key findings of the report:

- Four boreholes (MW101-19 to MW104-19) were drilled to depths ranging from 5.5m to 9.1m below ground surface (bgs) between September 9 and 10, 2019. The boreholes were installed as permanent monitoring wells. The monitoring wells are shown on **Figure 2**.
- The general soil stratigraphy observed on the Site consisted of 1.2 to 2.4m of silty sand fill over silty sand to depths between approximately 3.7m to 6.1m bgs underlain by clayey silt to depths between 5.5 to 9.1m bgs. Shale bedrock was encountered in boreholes MW101-19, MW102-19 and MW104-19 between approximately 5.5 to 7.5m bgs.
- The measured depth to groundwater in the monitoring wells ranged from approximately 4.10m to 7.93m bgs. Water elevation measurements indicated that the groundwater flow direction was easterly.
- Soil samples were collected from the boreholes and submitted for laboratory analysis of one or more of the following parameters: metals, electrical conductivity (EC), sodium adsorption ratio (SAR), pH, polycyclic aromatic hydrocarbons (PAHs), petroleum hydrocarbons (PHCs), benzene, toluene, ethylbenzene and xylene (BTEX) and volatile organic compounds (VOCs). Groundwater samples were collected from the monitoring wells and submitted for laboratory analysis of one or more of the following parameters: metals, PHCs, BTEX, and VOCs.
- The analytical results were compared to the MECP 2011 Table 3 Site Condition Standards (SCSs) for residential/parkland/institutional land use and coarse textured soil (2011 Table 3 SCSs).
- The groundwater analytical results were below the 2011 Table 3 SCSs for all analyzed parameters. No visual or olfactory evidence was observed during groundwater sampling activities.
- The soil analytical results were below the 2011 Table 3 SCSs for all analyzed parameters with the exception of lead from a shallow soil fill sample from borehole MW102-19 (0.2-0.6m). The vertical extent of lead in soil was determined at this borehole with the collection of a deeper soil sample at depth 1.5-2.1m.
- Salt related parameters EC and SAR were also above the 2011 Table 3 SCSs at MW101-19 and MW104-19. Both of the locations are located within the parking lot fronting George Street.

3. **“Geotechnical Investigation, Proposed Midrise Development, 18 to 24 Elizabeth Street North, Brampton, Ontario”**. Report No. 2019-12862R. Prepared for 2560517 Ontario Inc. by Sola Engineering, July 20, 2020.

A geotechnical investigation was completed for the 18 to 24 Elizabeth Street North portion of the Site by Sola Engineering (Sola). The following is a summary of the environmentally significant findings of the report:

- Eight boreholes, BH1 to BH8, were drilled as part of the geotechnical investigation to depths ranging from 6.55m to 12.22m bgs.
- Five boreholes (BH1, BH3, BH4, BH6 and BH7) were completed as monitoring wells.
- The general soil stratigraphy observed on the Site consisted of 0.3 to 1.5m of sandy silt to clayey silt fill, underlain by native sandy silt till to clayey silt till. Seams/layers of sandy silt or clayey silt were observed within the native till. Bedrock was not encountered during drilling activities.
- The depth to groundwater ranged from 2.97m to 7.90m bgs.

No environmental concerns relating to the Site were noted in the report.

4. **“Hydrogeological Assessment, 18-24 Elizabeth Street North, Brampton Ontario”**. REF. No.1913, Prepared for 2560517 Ontario Inc. by Harden Environmental Services Limited, August 9, 2020.

- A hydrogeological assessment was completed for the 18 to 24 Elizabeth Street North portion of the Site by Harden Environmental Services. The following is a summary of the environmentally significant findings of the report:
- Four shallow monitoring wells (BH1, BH3, BH6 and BH7) were installed by Sola Engineering at depths of 6.06m to 6.24m bgs.
- One deeper monitoring well (BH4) was installed by Sola Engineering at a depth of 12.22m bgs.
- Groundwater elevations were collected during multiple events between May 28, 2019 and July 15, 2020. The elevations ranged from 214.64m AMSL (above mean sea level) to 211.16m AMSL (1.20m to 5.29m bgs) at the shallow monitoring wells and 208.69m and 208.22m AMSL (7.57 to 8.04m bgs) at the deep monitoring well.
- Hydraulic conductivity tests were completed at four of the wells (BH1, BH3, BH4 and BH6) and conductivity values ranged from 1.5E-07 to 8.8E-07 m/s.
- The groundwater flow direction was determined to be southeasterly with probable discharge to the Etobicoke Creek located 800m to the east and south of the Site.

No environmental concerns relating to the Site were noted in the report.

5. **“Phase One Environmental Site Assessment, Residential Properties 18-24 Elizabeth Street North, Brampton, Ontario”**. Rubicon Job Number R61087.1, Prepared for 2560517 Ontario Inc. by Rubicon Environmental (2008) Inc., May 11, 2020.

A Phase One ESA completed for the 18 to 24 Elizabeth Street North portion of the Site by Rubicon Environmental (2008) Inc. (Rubicon). The following is a summary of the environmentally significant findings of the report:

- The report notes that the subject properties have been used for residential purposes since the 1890s.

- The report did not identify PCAs on the subject properties.
- The report did identify multiple off-Site PCAs. However, it was the opinion of Rubicon that PCAs do not represent an environmental concern to the subject properties.
- Based on the age of the buildings on the subject properties, the following items of concern were noted;
  - Fluorescent light fixtures were observed in a building. It is possible that PCB containing ballasts exist within the building;
  - Asbestos containing materials (ACMs) and/or urea formaldehyde foam insulation (UFFI) may be present within the subject properties' buildings; and
  - Lead based paints may have been historically used within the buildings.

MTE noted multiple environmental concerns to the Site within the report including;

- Fill material of unknown quality within the footprint of a historical building on present day 24 Elizabeth Street North that was demolished in 1960 according to the report. According to fire insurance plans (FIPs), the building was actually demolished before the 1940.
- A coal gasification plant is located at the northeast corner of Nelson Street and George Street (approximately 40m northeast to the Site).
- Multiple hazardous waste generator records within the Study Area.
- A National PCB Inventory record located at 8 Nelson Street West (approximately 70m northeast).
- Manufacturing listing record for various printing and graphic design services at 23 Nelson (20m east).

Additionally, MTE identified multiple environmental concerns at the Site from the fire insurance plans (FIPs) included in the report. The environmental concerns noted within the FIPs are further discussed in section **4(a)(iii)**.

### **Environmental Risk Information Services Report**

MTE contacted Environmental Risk Information Services Ltd. (ERIS), an environmental database and information service company, to complete a search of 74 government and private records for information pertaining to the Phase One Property and properties within 250 metres. The report was issued November 11, 2021 and was reviewed by MTE. A copy of the ERIS report is provided in **Appendix D**.

Seven records were found for the Phase One Property and 240 records were identified for the Study Area. The potentially significant records are summarized below.

<b>Address</b>	<b>Distance from Site</b>	<b>Record</b>
28 Elizabeth Street North 18-24 Elizabeth Street North	Site	<ul style="list-style-type: none"> <li>• Five monitoring well records (2019, 2020)</li> <li>• Two Historical ERIS Searches (2019)</li> </ul>
23 George Street North (Graphic Services)	East adjoining	<ul style="list-style-type: none"> <li>• Scott's manufacturing record for various printing and graphic design services.</li> </ul>

Address	Distance from Site	Record
11 George Street North (Brampton Optical)	East adjoining	<ul style="list-style-type: none"> <li>Hazardous waste generator records for aliphatic solvents, oil skimmings &amp; sludges (1986-1990, 1992-1998)</li> <li>Record of Site Condition (RSC) was filed in 2008, and no Certificate of Property Use (CPU) was issued</li> </ul>
9 George Street North (Alterra (Finer) Brampton LTD.)	Southeast adjoining	<ul style="list-style-type: none"> <li>Hazardous waste generator record for light fuels (2008-2009)</li> </ul>
Northeast Corner of Nelson Street and George Street	25m north	<ul style="list-style-type: none"> <li>A former coal gasification plant. The record describes a small (0.1 hectares) coal gasification plant that was present from approximately 1888-1917. A 56m<sup>3</sup> capacity gas holding tank is present on a referenced 1917 fire insurance plan</li> </ul>
14 Nelson Street West (Isseco Manufacturing Inc.)	25m northeast	<ul style="list-style-type: none"> <li>Scott's manufacturing record for material handling equipment manufacturing</li> </ul>

54 Main Street North (The Corporation of the City of Brampton Environmental Engineering)	150m east	<ul style="list-style-type: none"> <li>Hazardous waste generator records for waste oils/sludges (2021)</li> </ul>
33 Queen Street West (The Brampton Times)	150m southeast	<ul style="list-style-type: none"> <li>Hazardous waste generator for one or more of paint/pigment/coating residues, aromatic solvents, waste oils &amp; lubricants, and photoprocessing waste (1986-1989, 1992-1998)</li> </ul>
111 Queen Street West (2187787 Ontario Inc)	155m southwest	<ul style="list-style-type: none"> <li>Hazardous waste generator record for oil skimming &amp; sludges (2015)</li> </ul>
30 Main Street North (Corporation of the City of Brampton)	155m east	<ul style="list-style-type: none"> <li>Hazardous waste generator record for waste oils/sludges (2021)</li> </ul>
1 Main Street North (RBC Financial Group)	175m southeast	<ul style="list-style-type: none"> <li>Hazardous waste generator for one or more of PCBs (2004-2005)</li> </ul>
1 Main Street South (Scotiabank Real Estate) (Pinchin Ltd.)	180m southeast	<ul style="list-style-type: none"> <li>Hazardous waste generator for light fuels and inorganic wastes (2019)</li> </ul>

Address	Distance from Site	Record
14 Main Street North (Brampton Performance Art Centre)	185m east	<ul style="list-style-type: none"> <li>Hazardous waste generator for light fuels (2005)</li> </ul>
2 Wellington Street West (Corporation of the City of Brampton)	215m southeast	<ul style="list-style-type: none"> <li>Hazardous waste generator for one or more of paint/pigment/coating residues, petroleum distillates, other inorganic acid wastes, oil skimmings &amp; sludges, waste oils &amp; lubricants, organic laboratory chemicals, inorganic laboratory chemicals, waste compressed gases, photoprocessing wastes, and alkaline wastes – other metals (1992-2021)</li> <li>Spill of unknown quantity of diesel fuel to roof drain and road (1992)</li> </ul>

The ERIS report also included MECP well records for the Study Area, which are summarized in **Section 4.0(c)(v)**.

## (b) Environmental Source Information

### (i) Environment Canada

The National Pollutant Release Inventory (NPRI) was established in 1992 and requires companies to report information on releases and transfers of pollutants to the Government of Canada on an annual basis. Only facilities that meet established reporting criteria are required to report to the NPRI. Environment Canada makes the information available to Canadians in an annual public report and maintains a detailed inventory that can be accessed and searched through an online database.

MTE reviewed the NPRI for information pertaining to the Site and Study Area and no records were identified.

On July 1, 2000, the Government of Canada introduced the Federal Contaminated Sites and Solid Waste Landfills Inventory Policy that states that departments and agencies that hold property must establish and maintain a database of their contaminated sites and solid waste landfills and that this information must be submitted to the Treasury Board Secretariat for inclusion in a central inventory. The inventory includes known Federal Contaminated Sites for which departments and agencies are accountable and non-federal contaminated sites for which the Government of Canada has accepted some or all financial responsibility.

MTE reviewed the inventory for information pertaining to the Site and Study Area and no records were identified.

### (ii) PCB Information

The MECP, Waste Management Branch, maintained an inventory of PCB storage sites within the province. A review of the Ontario Inventory of PCB Storage Sites, MOE, July 2000 indicated that the Phase One Property is not a registered PCB storage site. Additionally, no records were listed within the Phase One Study Area. A copy of the PCB Inventory search is included in **Appendix E**.

### (iii) Environmental Registry

The Environmental Registry was created in 1994 to provide residents of Ontario access to environmentally significant decisions that the Government of Ontario is considering. The Registry contains a collection of notices about environmental matters being proposed by all

government ministries covered by the Environmental Bill of Rights. These notices include decisions on Environmental Compliance Approvals (ECAs) (formerly Certificates of Approval (CofA)), permits-to-take-water (PTTW), Certificates of Property Use (CPU) and similar instruments related to the environmental conditions of properties in Ontario. The Registry also contains a list of court actions that have been initiated under the Environmental Bill of Rights. The Ministry of the Environment also provides information on approvals and registration through Access Environment.

MTE reviewed the Environmental Registry and Access Environment for information pertaining to the Site and Study Area and the following relevant records were identified:

Address	Distance and Direction	Records
8 Nelson Street West	70m northeast	<ul style="list-style-type: none"> <li>Environmental Compliance Approval (air) (Number 9791-77MNUC) for Churchill International Property Corporation for two natural gas-fired heaters and one standby diesel generator.</li> </ul>

#### (iv) Inventory of Coal Gasification Plants

A review of the “Inventory of Coal Gasification Plant Waste Sites” and “Inventory of Industrial Sites producing or using Coal Tar and Related Tars” (MOE, April 1989) did not identify former coal gasification plants, coal tar distillation plants or related coal tar sites on the Phase One Property.

One record was identified within the Phase One Study Area at the northeast corner of Nelson Street West and George Street North, approximately 25m north of the Site. The inventory lists the operation years as 1888 to 1917. A copy of the inventory search is included in **Appendix E**.

#### (v) Environmental Incidents, Orders, Offences, Spills and Discharges

##### Region of Peel Environmental Control

A written Freedom of Information (FOI) request was filed with the Region of Peel Environmental Control department on November 18, 2021 for information pertaining to the 31 & 33 George Street North portion of the Phase One Property.

MTE has not received a response from the Region of Peel at the time of this report. If information is received in the future that would alter the conclusions of the Phase One ESA, a letter addendum will be provided.

##### City of Brampton Public Works & Engineering

A written Freedom of Information (FOI) request was filed with the City of Brampton Public Works & Engineering department on November 18, 2021 for information pertaining to the 31 & 33 George Street North portion of the Phase One Property.

A response from the City of Brampton Public Works & Engineering department dated December 9, 2021 indicated that the department did not have any pertinent information regarding the 31 & 33 George Street North portion of the Phase One Property.

#### (vi) Waste Management Records

The Hazardous Waste Information Network (HWIN) is a web-based system that, since 2004, allows generators, carriers and receivers of hazardous waste to register their activities with the MECP online. HWIN serves as an implementing tool for Ontario Regulation 347, and provides information on the generation, movement and disposal of hazardous waste in Ontario.

MTE maintains an internal electronic listing query of active records downloaded from the HWIN. MTE searched the internal listing that were completed on December 9, 2021. Reviews of the HWIN database were completed using this listing query and no active records of potential environmental concern were identified for the Site. The following records of potential environmental concern were identified for the Study Area.

Company Name and Address	Distance and Direction from Site	Generator Number	Waste Code	Waste Description
20 George Street North (Corporation of the City of Brampton)	40m east	ON7753137	251	Waste oils/sludges (petroleum based)
1 Diplock Lane (Corporation of the City of Brampton)	45m east	ON9548370	221	Light fuels
8 Nelson Street West (City of Brampton Transit)	70m northeast	ON7949520	251	Waste oils/sludges (petroleum based)
1 Theatre Lane (Corporation of the City of Brampton)	190m east	ON8346211	146	Other specified inorganic sludges, slurries or solids
			251	Waste oils/sludges (petroleum based)
			312	Pathological Waste
13 Elizabeth Street South (Alectra Utilities)	200m south	ON5579718	251	Waste oils/sludges (petroleum based)

In addition to the internal MTE database of records, historic hazardous waste generator records were also reviewed as part of the ERIS report in **Section 4.0(a)(v)**

**(vii) Reports Submitted to the MECP**

Freedom of Information

A Freedom of Information (FOI) Request was filed with the MECP, Freedom of Information and Protection of Privacy Office, on November 12, 2021, for information regarding environmental concerns on file for the Phase One Property. MTE had not received a response from the MECP at the time this report was prepared. If information is received in future that would alter the conclusions of this Phase One ESA, a letter addendum will be provided.

**(viii) Technical Standards and Safety Authority – Fuel Safety Branch**

MTE submitted an email request to TSSA on January 17, 2022 for information concerning fueling systems, USTs and ASTs on the Site and the following nearby properties:

- 31 George Street North
- 33 George Street North
- 22 Elizabeth Street North
- 18 Elizabeth Street North
- 27 George Street North
- 28 Elizabeth Street North
- 24 Elizabeth Street North
- 20 Elizabeth Street North
- 23 George Street North
- 9 George Street North

Customer Services responded via e-mail on January 18, 2022 indicating no records were found in their digital files.

It was noted that the TSSA Fuel Safety Division did not maintain these records prior to 1990. A copy of the TSSA response information is included in **Appendix E**.

**(ix) Brownfields Environmental Registry**

Brownfields are former industrial or commercial properties, which are vacant or underutilized, and where future use is affected by real or perceived environmental contamination. The Brownfield Environmental Site Registry allows public access to information contained in RSCs that have been filed with the MECP since October 1, 2004. In order to file an RSC, the property must be assessed in accordance with O.Reg.153/04 and shown to meet either the applicable generic Site Condition Standards or Property Specific Standards developed in a risk assessment.

MTE searched the Brownfield Environmental Site Registry for RSCs filed within 250 m of the Site. No RSCs were on file for the Phase One Property. The following RSCs were filed for properties within the Study Area.

Municipal Address (distance to Site)	Certification Date	Site Condition Standards	Notes
11 George Street North (east adjacent)	March 26, 2008	MECP 2011 Table 3: Full Depth Generic Site Condition Standards, with Non-potable Ground Water, Coarse Textured Soils, for Residential/Parkland/Institutional property use	<ul style="list-style-type: none"> <li>• RSC #44982</li> <li>• RSC filing was supported by a Phase I ESA, Phase II ESA, Test Pit Program and Remediation Report</li> <li>• No CPU was issued</li> <li>• Approximately 720 m<sup>3</sup> of hydrocarbon and metals impacted soil was removed.</li> <li>• No soil was brought to the property</li> </ul>
45 Railroad Street (190m northwest)	October 10, 2017	MECP 2011 Table 3: Full Depth Generic Site Condition Standards, with Non-potable Ground Water, Medium and Fine Textured Soils, for Residential property use	<ul style="list-style-type: none"> <li>• RSC #224006</li> <li>• RSC filing was supported by a Phase One and Phase Two ESA</li> <li>• No CPU was issued</li> <li>• Approximately 5130m<sup>3</sup> of soil contaminated with PAHs, Metals, EC/SAR was removed from the property.</li> <li>• Approximately 4000m<sup>3</sup> was brought onto the property.</li> <li>• Approximately 87,500 litres of groundwater contaminated with Metals, PAHs, PHCs and VOCs was removed from the Site.</li> </ul>

**(x) Areas of Natural Significance**

To determine the potential presence of Areas of Natural Significance on the Site or within the Study Area, Ministry of Natural Resources and Forestry (MNR) on-line records, the Official Plan of the Region of Peel, the Official Plan of the City of Brampton and the Toronto and Region Conservation Authority (TRCA) were reviewed.

Ministry of Natural Resources and Forestry (MNR)

The MNRF on-line records indicated that there was a potential for the following threatened or endangered species to be present within the Phase One Study Area: The Redside Dace (fish) and the Eastern Meadowlark (bird). Habitats identified for the Redside Dace include pools and slow-moving areas of small streams. None of these habitats are located on or within 30m of the Site, and these species are not expected to be present.

Habitats identified for the Eastern Meadowlark species include moderately tall grasslands, alfalfa fields, weedy borders of croplands, roadsides, orchards, airports, shrubby overgrown fields or other open areas. Small trees, shrubs or fence posts are often used as elevated song perches. None of these habitats are located on or within 30m of the Site, and these species are not expected to be present.

A review of the MNRF on-line records also indicated that the Site and properties within 30m of the Site are not located in wetlands, woodlands, Areas of Natural and Scientific Interest (ANSI), parkland area or Natural Heritage Systems.

#### The Regional Municipality of Peel (Peel Region) Official Plan

MTE reviewed the Peel Region Official Plan (September 2021 Consolidation). The Official Plan is a public document that establishes a policy framework for public and private sector decisions regarding immediate and long term land use, servicing, transportation, infrastructure investment and economic matters within the Region of Peel. The Official Plan indicated the following:

- The Site and areas within 30m of the Site are not within the core areas of the Greenland Systems;
- The Site is located in an Urban Growth Centre; and
- The Site and areas within 30m of the Site are not within a Greenbelt Plan Area, Natural Heritage System, a Niagara Escarpment Plan Area or an Oak Ridges Moraine Plan Area.

#### City of Brampton Official Plan

MTE reviewed the City of Brampton Official Plan (September 2020 Consolidation). The Official Plan is a public document that establishes a policy framework for public and private sector decisions regarding immediate and long term land use, servicing, transportation, infrastructure investment and economic matters within the City of Brampton. The Official Plan indicated the following:

- The Site and Study are located within a central area land use designation;
- The Site and areas within 30m of the Site are not within Natural Heritage Feature areas including: life and earth science areas of natural and scientific interest (ANSI), woodland areas, provincially significant wetlands, lakes, environmentally sensitive/significant areas, or provincial greenbelt/protected countryside;
- The Site and Study Area do not include a community park, a citywide park or a conservation area.

Toronto and Region Conservation Authority (TRCA)

A review of the on-line mapping for the TRCA did not identify any watercourses or wetlands on the Site or within 30m of the Site.

The 31-33 George Street North area of the Site and properties to the east of the Site are within a Flood Hazard (Estimate) area.

Based on a review of the above no Areas of Natural Significance were identified on or within 30m of the Phase One Property as summarized below:

<b>Does the Phase One Property include:</b>	<b>Yes</b>	<b>No</b>
An area reserved or set apart as a provincial park or conservation reserve under the <i>Provincial Parks and Conservation Reserves Act, 2006</i> .		X
An area of natural and scientific interest (life science or earth science) identified by the Ministry of Natural Resources as having provincial significance.		X
A wetland identified by the Ministry of Natural Resources as having provincial significance.		X
An area designated by a municipality in its official plan as environmentally significant, however expressed, including designations of areas as environmentally sensitive, as being of environmental concern and as being ecologically significant.		X
An area designated as an escarpment natural area or an escarpment protection area by the Niagara Escarpment Plan under the <i>Niagara Escarpment Planning and Development Act</i> .		X
An area identified by the Ministry of Natural Resources as significant habitat of a threatened or endangered species.		X
An area which is habitat of a species that is classified under section 7 of the <i>Endangered Species Act, 2007</i> as a threatened or endangered species.		X
Property within an area designated as a natural core area or natural linkage area within the area to which the Oak Ridges Moraine Conservation Plan under the <i>Oak Ridges Moraine Conservation Act, 2001</i> applies.		X
An area set apart as a wilderness area under the <i>Wilderness Areas Act</i> .		X

Similarly, no Areas of Natural Significance were identified on or within 30m of the Phase One Property boundary pursuant to Part IX, Section 41.(1)(a):

<b>Does the Area within 30 m include:</b>	<b>Yes</b>	<b>No</b>
An area reserved or set apart as a provincial park or conservation reserve under the <i>Provincial Parks and Conservation Reserves Act, 2006</i> .		X
An area of natural and scientific interest (life science or earth science) identified by the Ministry of Natural Resources as having provincial significance.		X
A wetland identified by the Ministry of Natural Resources as having provincial significance.		X
An area designated by a municipality in its official plan as environmentally significant, however expressed, including designations of areas as environmentally sensitive, as being of environmental concern and as being ecologically significant.		X
An area designated as an escarpment natural area or an escarpment protection area by the Niagara Escarpment Plan under the <i>Niagara Escarpment Planning and Development Act</i> .		X

Does the Area within 30 m include:	Yes	No
An area identified by the Ministry of Natural Resources as significant habitat of a threatened or endangered species.		X
An area which is habitat of a species that is classified under section 7 of the <i>Endangered Species Act, 2007</i> as a threatened or endangered species.		X
Property within an area designated as a natural core area or natural linkage area within the area to which the Oak Ridges Moraine Conservation Plan under the <i>Oak Ridges Moraine Conservation Act, 2001</i> applies.		X
An area set apart as a wilderness area under the <i>Wilderness Areas Act</i> .		X

### (xi) Landfills

A review of the “Waste Disposal Site Inventory” (MOE, June 1991) did not identify records for active or closed landfills on the Phase One Property or on properties within the Study Area. A copy of the Waste Disposal Site Inventory search is included in **Appendix E**.

### (c) Physical Setting Sources

#### (i) Aerial Photographs

Aerial photographs were reviewed for information pertaining to the Phase One Property and Phase One Study Area. Aerial photographs were obtained through ERIS and observed on the City of Brampton mapping service. The aerial images were dated 1946, 1966, 1974, 1986, 1995, 2005 and 2018 were reviewed. Selected copies of the aerial photographs are provided in **Appendix F**.

Date	Site Description	Surrounding Land Use Description
1946	The western portion of the Site is occupied by the present day residential dwellings. The northeastern portion of the Site consist of vacant land.	The Study Area consist of a mixture of commercial, residential and industrial land uses typical to downtown Brampton. Elizabeth Street North, Nelson Street West, George Street North and Main Street North are observed in their present day configurations.
1966	The Site is observed in its present day configuration. The western portion of the Site is occupied by the present day residential dwellings and the eastern portion of the Site is occupied by the present day multi-tenant mixed commercial /residential building. The central portion of the Site appears to consist of parking areas and trees.	New structures were built east of George Street North.  No other significant changes to the surrounding areas were observed.
1974	No significant changes to the Site are observed.	The property east adjacent to the Site (27 George St. N.) appears to be rebuilt with a structure similar to the ones observed during the Site visit.  No other significant changes to the surrounding areas were observed.

Date	Site Description	Surrounding Land Use Description
1986	No significant changes to the Site are observed.	No significant changes to the surrounding areas were observed.
1995	No significant changes to the Site are observed.	A parking garage structure is observed 50m northeast of the Site along Main Street North.
2005	No significant changes to the Site are observed.	A commercial building to the south of the Site (15 George Street North) has been demolished. No other significant changes to the surrounding areas were observed.
2018	No significant changes to the Site are observed.	A residential condominium building has been constructed 55m south of the Site (at 15 George Street North).

## (ii) Topography, Hydrology, Geology

Ontario Base Map (OBM) 10 17 5950 48350 was reviewed for the Phase One Study Area. The geodetic ground surface elevation of the Site is approximately 215m above sea level (masl). The UTM coordinates for the approximate center of the Phase One Property are 17T 599,695 metres east and 4,837,680 metres north (MNR, 1980 National Topographic Map). A copy of the OBM is included in **Appendix F**.

The Phase One Property is located within the broad physiographic region known as the Peel Plain, which comprises approximately 777 km<sup>2</sup> (300 square miles) across the central portions of the Regional Municipalities of York, Peel, and Halton. The Plain consists of a level-to-undulating tract of clay soils, with a gradual and fairly uniform slope toward Lake Ontario (*Chapman and Putnam*, 1984). The underlying geological material consists of glaciolacustrine deposits including sand, gravelly sand with gravel, near-shore and beach deposits.

Borehole logs from previous reports (MTE, 2019; Sola, 2020) were reviewed as part of this Phase One ESA. The reports generally found the subsurface stratigraphy to consist of 0.3 to 2.4m of fill (silty sand and/or gravel) over native silty sand and silty sand till to depth of 3.7m to 7.0m bgs, underlain by clayey silt till to depths of 5.5 to 12.2m bgs. Shale bedrock was encountered at depths ranging from approximately 5.5 to 7.5m bgs in the eastern portion of the Site. Bedrock was not encountered in western portion of the Site to a maximum drilled depth of 12.2m bgs.

The measured depth to groundwater in the monitoring wells installed during the previous investigations ranged from approximately 2.97m to 7.93m bgs. Based on measured groundwater elevations, the groundwater flow direction was inferred to be southeasterly.

The regional groundwater flow direction is expected to be easterly following topography and a general decrease in surface elevation towards Etobicoke Creek.

## (iii) Fill Material

Approximately, 0.3-2.4m of fill materials were identified during the previous investigations completed at the Site, including evidence of some non-soil materials such as wood fragments.

#### **(iv) Water Bodies and Areas of Natural Significance**

There are no water bodies on or within 30m of the Site. The closest water body is the Etobicoke Creek, which is located approximately 700m south-southeast of the Phase One Property.

The Phase One Property is not located on or within 30m of an area of natural significance (e.g., ANSI). No areas of natural significance were identified in the Study Area based on a review of The Ministry of Natural Resources and Forestry (MNRF) on-line records, the Region of Peel Official Plan, the City of Brampton Official Plan and Toronto and Region Conservation Authority.

#### **(v) Well Records**

The MECP provides a web-based well record inventory available to the public. Well records are searchable by number, location and through the use of an interactive map. Multiple well records were identified within the Study Area. The general stratigraphy was described as fill extending to 2.4 mbgs underlain by silt and clay to a maximum depth of approximately 7.6m bgs. Shale bedrock was encountered beneath the clay unit beginning at depths of approximately 3.0 to 7.6m bgs. Selected well records are included in **Appendix E**.

There are no drinking water wells on the Site.

#### **(d) Site Operating Records**

No Site operating records were available for the Phase One Property.

#### **(i) Regulatory Permits and Records**

No regulatory permits or similar records were available for the Phase One Property.

#### **(ii) Materials Safety Data Sheets (MSDS)**

No Material Safety Data Sheets (MSDS) were available for review.

#### **(iii) Underground Utility Drawings**

Based on a private utility locate completed during a previous Phase II ESA drilling program for the 28 Elizabeth and 31-33 George Street properties (MTE, 2019), underground utilities on this portion of the property included natural gas, hydro, municipal water, telecommunications and sewer services.

Observations made during the Site visit suggest that properties including 18, 20, 22 and 24 Elizabeth Street are serviced by underground natural gas, water and storm and sanitary sewers and aboveground hydro.

#### **(iv) Inventories of Chemicals and Chemical Storage Areas**

There were no inventories of chemicals and chemical storage area available for the Site.

#### **(v) Inventories of Aboveground and Underground Storage Tanks**

During the inspection of the 22 Elizabeth Street property, an empty fuel oil AST was noted in the basement of the dwelling. The vent and fill pipes for the AST were located along the northern exterior wall of the dwelling, as shown on **Figure 2**. No other evidence of current or former ASTs or USTs were observed during the Site visit.

No inventories of ASTs or USTs were available for the Phase One Property.

#### **(vi) Environmental Monitoring Data**

Soil and groundwater samples were submitted for analysis during the Phase II ESA investigation completed for the 28 Elizabeth and 31-33 George Street properties in 2019. No other environmental monitoring data was available for the Phase One Property.

**(vii) Waste Management Records**

There were no waste management records available for the Site.

**(viii) Process, Production and Maintenance Documents**

There was no process, production or maintenance documents available for review.

**(ix) Records of Spills and Discharges**

No public or private spill or discharge records were identified for the Phase One Property.

**(x) Spill Prevention, Emergency Response and Contingency Plans**

No spill prevention, emergency response or contingency plans were identified for the Phase One Property.

**(xi) Environmental Audit Reports**

There were no environmental compliance audit reports available for the Phase One Property.

**(xii) Site Plan of Facility**

A copy of the survey plan is provided in **Appendix A**. The approximate locations of historic and current features on the Site are illustrated on **Figure 2**.

## 5.0 Interview

On February 11, 2022 an interview was completed for the Site with Mr. Mark Zaky and Mr. Derek Brovold, Development Manager and Property Manager of Greenwin. The following is a summary of the relevant information provided to MTE:

- Elizabeth/George Holdings Inc. has owned the 31-33 George Street North portion of the Site for approximately 1.5 years at the time of the interview and the 18-24 Elizabeth Street North Portion of the Site for less than a year at the time of the interview;
- Blackstone Steakhouse & Grill is the current tenant of 31 George Street North;
- 33 George Street North is a vacant commercial building;
- 18-28 Elizabeth Street North consisted of residential properties;
- 28 Elizabeth Street North was first developed in 1870 and was renovated in 1940 to transition the building to multi-family use;
- Two easements exist on the Site including a Bell Canada Easement at the north corner of Elizabeth Street North and Nelson Street West and Unit Owners of Peel Standard Condominium Plan No. 917 over a portion of 18 Elizabeth Street North;
- The Site is serviced by municipal water, sewer, and waste collection; and
- A decommissioned fuel tank is located in the basement of 22 Elizabeth Street North.

The information gathered from the interviews was considered to be accurate and was consistent with the findings of the historical records review and information obtained during the previous Phase I ESA completed for the northern portion of the Site. A copy of the interview questionnaire is included in **Appendix G**.

## 6.0 Site Reconnaissance

### (a) General Requirements

A Site reconnaissance to observe the entire Phase One Property occurred on November 16, 2022 from 8:00am to 11:00am by Mr. Spencer Buck, B.Sc. of MTE. The weather was sunny and the temperature was approximately 5°C. All exterior areas of the Phase One Property were accessible. Due to the COVID-19 pandemic, MTE did not enter individual residential apartments located on the 2<sup>nd</sup> storey of the 31-33 George Street building, and the buildings at 18, 20, 22, 24, and 28 Elizabeth Street. All common areas and basements of these buildings were available for inspection. The Inspection Report and photographs of the Phase One Property and adjacent properties are included in **Appendix G**. The Site Layout and Features are illustrated on **Figure 2**.

### (b) Specific Observations at Phase One Property

#### 31 & 33 George Street North

The 31 & 33 George Street North property includes a two storey building (no basement) with three commercial units on the ground floor and 2<sup>nd</sup> storey residential apartments. The three commercial units consisted of a restaurant, a convenience store and a vacant unit undergoing renovations. Interior finishes within the building include one or more of hardwood flooring, vinyl tile flooring, painted dry wall, ceramic tiles and acoustic ceiling tiles.

Exterior areas of the 31 & 33 George Street North property include asphalt surface parking areas and a laneway along the southwestern exterior of the building.

#### 28 Elizabeth Street North

The 28 Elizabeth Street North property includes a large, three-storey residential home (heritage home) that has been subdivided into residential apartments. The building has a basement which includes storage area, utilities and a furnace room. In the northwest corner of the basement, a coal chute was identified. Interior finishes within the 28 Elizabeth Street North building include hardwood flooring, ceramic tile flooring and painted plaster walls and ceiling. The basement interior consisted of concrete floors, brick and painted wood beams.

Exterior areas of the 28 Elizabeth Street North property including grassed area, some mature trees and two gravel surface parking areas to the northeast of the building accessed from Nelson Street West. The overall topography of the this section of the Site slopes to the north and east and the gravel surface parking areas are separated from the adjoining properties to the northeast (including 31-33 George Street North) by an approximately 1-2m wood retaining wall.

#### 18, 20, 22 and 24 Elizabeth Street North

The four properties fronting Elizabeth Street North each contain a single-family residential dwelling, with buildings at 18, 20 and 22 Elizabeth Street North being divided into rooming houses. The dwellings are constructed of red brick with peaked asphalt shingled roofs. There are two storage sheds located to the northeast of the 22 and 24 Elizabeth St. N. dwellings, constructed of wood siding and concrete blocks. The sheds are used to store miscellaneous household items and several motorcycles. A vent and fill pipe were observed along the northern exterior wall of the 22 Elizabeth St. N. dwelling, associated with an empty fuel oil AST observed in the basement of this building. No other evidence of former heating infrastructure was observed along exterior walls or in the basements of the dwellings. Interior finishes within the dwellings varied and generally consisted of hardwood, carpet, laminate and ceramic tile flooring, drywall and wood paneling walls and drywall ceilings.

The exterior of the properties included asphalt and gravel surface driveways with access from Elizabeth Street and grassed front and back lawns. The back lawns of the dwellings slope severely to the east and contain multiple mature trees. The residential properties are separated from the adjoining transformer building to the south and commercial/residential properties to the east by a chain link fence.

**Special Attention Items**

There is a potential for materials and equipment that contain PCBs, mercury, asbestos and lead within the buildings. Mercury, lead and asbestos are defined as designated substances under the Ontario Occupational Health and Safety Act (OHSA) and each have specific environmental legislation regarding their handling, use and management.

The residential buildings (18, 20, 22, 24 and 28 Elizabeth Street North) were constructed pre-1900 and the 31&33 George Street North building was constructed in the 1960s. There is a potential concern for:

- Asbestos-containing materials (ACMs) such as vinyl tile and linoleum flooring, ceiling materials, wall board or joint compound to be present;
- Lead to be present in painted surfaces and other materials such as pipe solder and roofing materials (flashing, gutters, downspouts); and
- Florescent light fixture ballasts that may contain PCBs and fluorescent light tubes that may contain mercury.

A designated substance and hazardous materials survey, including the collection and analysis of samples would be required to confirm the presence/absence of designated substances or other potentially hazardous materials in building materials or equipment at the Site.

No testing for radon gas was completed as part of this Phase One ESA.

**Surrounding Properties in the Phase One Study Area**

The Phase One Property is located in a mixed residential and commercial area of Brampton. Properties surrounding the Site included:

Direction	Address	Property Use or Occupant
North	Nelson Street West 20 Nelson Street West 26 Nelson Street West 28-30 Nelson Street West	Roadway Office Building Parking Lot Vacant/Residential
East	George Street North 21 Nelson Street West 27 George Street North 23 George Street North 21 George Street North 9 George Street North	Roadway Multi-tenant commercial LCBO Shri Shirdi Sai Baba Temple Brampton Yum Yum Restaurant Commercial/Residential Building
South	27 George Street North 8 Elizabeth Street North	LCBO Hydroelectric Starion

Direction	Address	Property Use or Occupant
West	Elizabeth Street North 35 Nelson Street West 15-27 Elizabeth Street North	Roadway Residential Residential

### (i) Enhanced Investigation Property

Under O.Reg.153/04, a property is considered an Enhanced Investigation Property (EIP) if the Site is used, or has been used, in whole or in part for an industrial use or for a garage, bulk liquid dispensing facility including a gasoline outlet or dry cleaning operation. According to historical records, the Site is not and has not been historically used as any of the above uses. Therefore, the Site was not considered to be an EIP.

### (c) Written Description of Investigation

The investigation completed by MTE is summarized as follows:

- MTE performed the Phase One ESA investigation according to the scope of work provided in Section 3. There were no limitations to or deviations from the scope of work.
- MTE corresponded and/or reviewed correspondence with the MECP, City of Brampton, Region of Peel and the TSSA.
- MTE consulted published records and databases and obtained an ERIS report.
- MTE interviewed persons knowledgeable about the Phase One Property.
- MTE conducted a Site reconnaissance to observe the Phase One Property.
- MTE observed neighbouring properties and other properties within the Study Area as they could be viewed from the Phase One Property or publicly accessible areas.
- MTE has determined that there are PCAs in the Study Area and on the Phase One Property, which are described in **Section 7(ii)** of this report.

## 7.0 Review and Evaluation of Information

### (i) Current and Past Uses

The table of Current and Past Uses of the Phase One Property is included in **Appendix H**.

### (ii) Potentially Contaminating Activity

The results of the Phase One ESA identified Potentially Contaminating Activities (PCAs) listed in Table 2 of Schedule D of O.Reg.153/04 on the Site and in the Study Area.

The on and off-Site PCAs details are included in the PCA Summary Table in **Appendix I**. The on-Site PCA locations are illustrated on **Figure 3** and the off-Site PCA locations are illustrated on **Figure 4a**.

### (iii) Areas of Potential Environmental Concern

All of the PCAs identified on the Phase One Property were considered to result in APECs on the Site.

The potential for a PCA in the Study Area to result in an APEC on the Site was evaluated based on details of the PCA, Site reconnaissance observations, the distance and location with respect to the Phase One Property, and the inferred groundwater flow direction as determined by a previous Phase II ESA (easterly). The PCAs resulting in an APEC are summarized in the PCA Summary Table in **Appendix I**.

The APEC locations are illustrated on **Figure 5** and the APEC Table is included in **Appendix I**.

### (iv) Phase One Conceptual Site Model

The Phase One Conceptual Site Model (CSM) was developed in accordance with Part V in Schedule D of O. Reg. 153/04. The CSM consisted of two parts; the following narrative description, which follows the sub-headings in Table 1 of Schedule D and supporting **Figure 1** through **Figure 5**.

The following was noted with respect to the Phase One CSM:

- (i) The Site is currently occupied by four residential dwellings, one multi-family residential dwelling and one multi-tenant commercial building with parking areas and landscaped areas. The Site layout is illustrated on **Figure 2**.
- (ii) There are no water bodies located on or within 30m of the Site.
- (iii) There are no areas of natural significance on or within 30m of the Site.
- (iv) There are no drinking water wells on the Phase One Property.
- (v) Roads located near the Phase One Property include Nelson Street West to the north, George Street North to the east and Elizabeth Street North to the south. Other roads within the Study Area are indicated on **Figure 4a**.
- (vi) The locations of the on-Site PCAs are illustrated on **Figure 3**. The PCAs in the Study Area are illustrated on **Figure 4a**.
- (vii) The locations of APECs on the Phase One Property are illustrated on **Figure 5**.

## Phase One Property Description

The Phase One Property is approximately 0.61 hectares (1.50 acres) in area and is located on the south side of Nelson Street West between Elizabeth Street North and George Street North in a mixed residential and commercial area of Brampton. The Phase One Property consists of six adjoining properties, including: a multi-tenant residential dwelling with associated gravel parking areas and landscaped areas at 28 Elizabeth Street North; four single family residential dwelling properties at 18-24 (even) Elizabeth Street North; and a multi-tenant commercial building with associated asphalt parking area and second floor residential units at 31 & 33 George Street North. The eastern portion of the Site (east of the residential dwellings fronting Elizabeth Street) slopes downward approximately 3-4m from the western portion of the Site and includes mature trees and grassed area.

## Phase One Property History

Historical records indicated that the 31 & 33 George Street North and 24 Elizabeth Street North portions of the Site were developed with residential dwellings sometime prior to 1857. The dwellings at 31 & 33 George Street North were demolished sometime prior to 1894 and this portion of the Site remained vacant until the early 1960s when the current commercial building

was built. The original dwelling at 24 Elizabeth Street North was demolished sometime between 1917 and 1940 when the current dwelling was constructed.

The properties at 18, 20, 22 and 28 Elizabeth Street North were vacant land until the current residential dwellings were constructed in the 1940s (18 and 22 Elizabeth), 1900s (20 Elizabeth) and 1890s (28 Elizabeth).

The Site has remained in its current configuration since the 1960s. The commercial building at 31 & 33 George Street has been occupied by a number of retail businesses and restaurants. The Elizabeth Street properties have remained residential with some converting to multi-tenant residential within the same dwelling.

### Proposed Future Use

The proposed future use of the Phase One Property is a new residential condominium development.

### Enhanced Investigation Property (EIP)

The Site is not classified as an Enhanced Investigation Property (EIP) according to O.Reg.153/04.

### Areas where Potentially Contaminating Activity on or potentially affecting the Phase One Property has occurred

The PCAs identified on the Site and in the Study Area are summarized in the PCA Summary Table in **Appendix I** of this report. The on-Site PCA locations are illustrated on **Figure 3** and the off-Site PCA locations are illustrated on **Figure 4a**. The APEC locations are illustrated on **Figure 5**. The APEC Table is included in **Appendix I**.

The boundaries of the APECs and the COPCs in each APEC were as follows:

- APEC 1 was defined as the entire Phase One Property where fill material of unknown quality may have been imported during historical Site grading, including following demolition of former structures (PCA #1). The COPCs in APEC 1 included metals, hydride-forming metals arsenic (As), antimony (Sb) and selenium (Se), mercury (Hg), cyanide (CN-) hot water soluble boron (B-HWS), petroleum hydrocarbons (PHCs) and benzene, ethylbenzene, toluene and xylene (BTEX) in soil.
- APEC 2 was defined as the areas around the dwellings at 18, 20, 22 and 24 Elizabeth Street North where fuel/heating oil was inferred to have been used for heat (PCA #2). An empty fuel oil tank was observed in the basement of 22 Elizabeth Street North. No other evidence of current or former heating infrastructure was observed. The COPCs in APEC 2 included PHCs and BTEX in soil and groundwater.
- APEC 3 was defined as the northwestern portion of the 28 Elizabeth Street North building where a coal chute (PCA #3) was observed. The COPCs within APEC 3 included metals, As, Sb, Se, Hg and PAHs in soil and groundwater.
- APEC 4a, 4b and 8 had the same boundary which was defined as the area adjacent to the eastern boundary of the Phase One Property based on the presence of a former printing and graphic design business (PCA #4a), machine shop (PCA #4b), and auto related business (PCA #8) on two adjacent properties to the east of the Site. The COPCs in APEC 4a, 4b and 8 included metals, As, Sb, Se, PHCs, BTEX and volatile organic compounds (VOCs) in groundwater.
- APEC 5 was defined as the area adjacent to the southeastern boundary of the Site based on the presence of a former eyewear manufacturer where hydrocarbon impacted

soil was remediated (PCA #5a), where glass and metal products (eyewear) were manufactured (PCA #5b and #5c) and solvents may have been stored and used (PCA #5d). The COPCs in APEC 5 included metals, As, Sb, Se, PHCs, BTEX and VOCs in groundwater.

- APEC 6 was defined as the area adjacent to the southern boundary of the Site based on the historical and current presence of a hydroelectric station (PCA #6) on an adjoining property to the south. The COPCs in APEC 6 included metals, As, Sb, Se, PHCs, PHCs, BTEX and VOCs in groundwater.
- APEC 7a, 7b, 7c and APEC 9 had the same boundary which was defined as the area adjacent to the northeastern boundary of the Site based on the presence of a former coal gasification plant (PCA #7a), former equipment manufacturer (PCA #7b), former generation of photoprocessing wastes (PCA #7c) and a former prefabricated building and components manufacturer (PCA #9). The COPCs in APEC 7a, 7b, 7c and 9 included metals, As, Sb, Se, Hg, CN-, polycyclic aromatic hydrocarbons (PAHs), acid-base-neutral compounds (ABNs), PHCs, BTEX and VOCs in groundwater.

### Potential for Underground Utilities to Affect Contaminant Distribution

Based on a private utility locate completed during a previous Phase II ESA drilling program for the 28 Elizabeth and 31-33 George Street properties (MTE, 2019), underground utilities on this portion of the property included natural gas, hydro, municipal water, telecommunications and sewer services.

Observations made during the Site visit suggest that properties including 18, 20, 22 and 24 Elizabeth Street are serviced by underground natural gas, water and storm and sanitary sewers and aboveground hydro.

### Regional or site specific geological and hydrogeological information

The Phase One Property is located within the broad physiographic region known as the Peel Plain, which comprises approximately 777 km<sup>2</sup> (300 square miles) across the central portions of the Regional Municipalities of York, Peel, and Halton. The Plain consists of a level-to-undulating tract of clay soils, with a gradual and fairly uniform slope toward Lake Ontario (Chapman and Putnam, 1984). The underlying geological material consists of glaciolacustrine deposits including sand, gravelly sand with gravel, near-shore and beach deposits.

Borehole logs from previous reports (MTE, 2019; Sola, 2020) were reviewed as part of this Phase One ESA. The reports generally found the subsurface stratigraphy to consist of 0.3 to 2.4m of fill (silty sand and/or gravel) over native silty sand and silty sand till to depth of 3.7m to 7.0m bgs, underlain by clayey silt till to depths of 5.5 to 12.2m bgs. Shale bedrock was encountered at depths ranging from approximately 5.5 to 7.5m bgs in the eastern portion of the Site. Bedrock was not encountered in western portion of the Site to a maximum drilled depth of 12.2m bgs.

The measured depth to groundwater in the monitoring wells installed during the previous investigations ranged from approximately 2.97m to 7.93m bgs. Based on measured groundwater elevations, the groundwater flow direction was inferred to be southeasterly.

The regional groundwater flow direction is expected to be easterly following topography and a general decrease in surface elevation towards Etobicoke Creek.

### Uncertainty or absence of information that could affect the validity of the CSM

At the time of writing this Phase One ESA report some responses to information requests from the MECP and Region of Peel had not been received. While the absence of this information is

not expected to alter the conclusion of the Phase One ESA, if additional PCAs/APECs are identified as a result of the outstanding responses an Update Phase One ESA will be required.

## 8.0 Conclusions

### (i) Phase Two Environmental Site Assessment Requirement

The results of the Phase One ESA identified PCAs that resulted in APECs on the Site. As a result, a Phase Two ESA is required before a Record of Site Condition can be filed.

### (ii) RSC Based on Phase One Environmental Site Assessment

A Record of Site Condition cannot be filed on the basis of this Phase One ESA alone.

### (iii) Signatures and Limitations

Services performed by **MTE Consultants Inc.** (MTE) were conducted in a manner consistent with the level of care and skill ordinarily exercised by members of the Environmental Engineering & Consulting profession. No other warranty or representation expressed or implied as to the accuracy of the information, conclusions or recommendations is included or intended in this report.

This report was completed for the sole use of MTE and Greenwin Corp. in accordance with the Scope of Work referred to in Section 3. As such, this report may not deal with all issues potentially applicable to the site and may omit issues, which are or may be of interest to the reader. MTE makes no representation that the present report has dealt with any and all of the important features, including any or all important environmental features, except as provided in the Scope of Work. All findings and conclusions presented in this report are based on site conditions, as they existed during the time period of the investigation. In addition, MTE has relied on information provided by the persons interviewed as part of this study (identified herein) as being accurate and representative. This report is not intended to be exhaustive in scope or to imply a risk-free facility or conditions.

Any use which a third party makes of this report, or any reliance on, or decisions to be made based upon it, are the responsibility of such third parties. MTE accepts no responsibility for liabilities incurred by or damages, if any, suffered by any third party as a result of decisions made or actions taken, based upon this report. Others with interest in the site should undertake their own investigations and studies to determine how or if the condition affects them or their plans.

It should be recognized that the passage of time may affect the views, conclusions and recommendations (if any) provided in this report because environmental conditions of a property can change. Should additional or new information become available, MTE recommends that it be brought to our attention in order that we may re-assess the contents of this report.

All of which is respectfully submitted,

**MTE Consultants Inc.**

### Report

The documents (hereinafter referred to as the "Documents") to be released as part of the report (hereinafter referred to as the "Report") to be delivered to the purchaser as set out above are documents in Opta's records relating to the described property (hereinafter referred to as the "Property"). Opta makes no representations or warranties respecting the Documents whatsoever, including, without limitation, with respect to the completeness, accuracy or usefulness of the Documents, and does not represent or warrant that these are the only plans and reports prepared in association with the Property or in Opta's possession at the time of Report delivery to the purchaser. The Documents are current as of the date(s) indicated on them. Interpretation of the Documents, if any, is by inference based upon the information which is apparent and obvious on the face of the Documents only. Opta does not represent, warrant or guarantee that interpretations other than those referred to do not exist from other sources. The Report will be prepared for use by the purchaser of the services as shown above hereof only.

### Disclaimer

Opta disclaims responsibility for any losses or damages of any kind whatsoever, whether consequential or other, however caused, incurred or suffered, arising directly or indirectly as a result of the services (which services include, but are not limited to, the preparation of the Report provided hereunder), including but not limited to, any losses or damages arising directly or indirectly from any breach of contract, fundamental or otherwise, from reliance on Opta Reports or from any tortious acts or omissions of Opta's agents, employees or representatives.

### Entire Agreement

The parties hereto acknowledge and agree to be bound by the terms and conditions hereof. The request form constitutes the entire agreement between the parties pertaining to the subject matter hereof and supersedes all prior and contemporaneous agreements, negotiations and discussions, whether oral or written, and there are no representations or warranties, or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein. No supplement, modification, waiver, or termination of the request shall be binding, unless confirmed in writing by the parties hereto.

### Governing Document

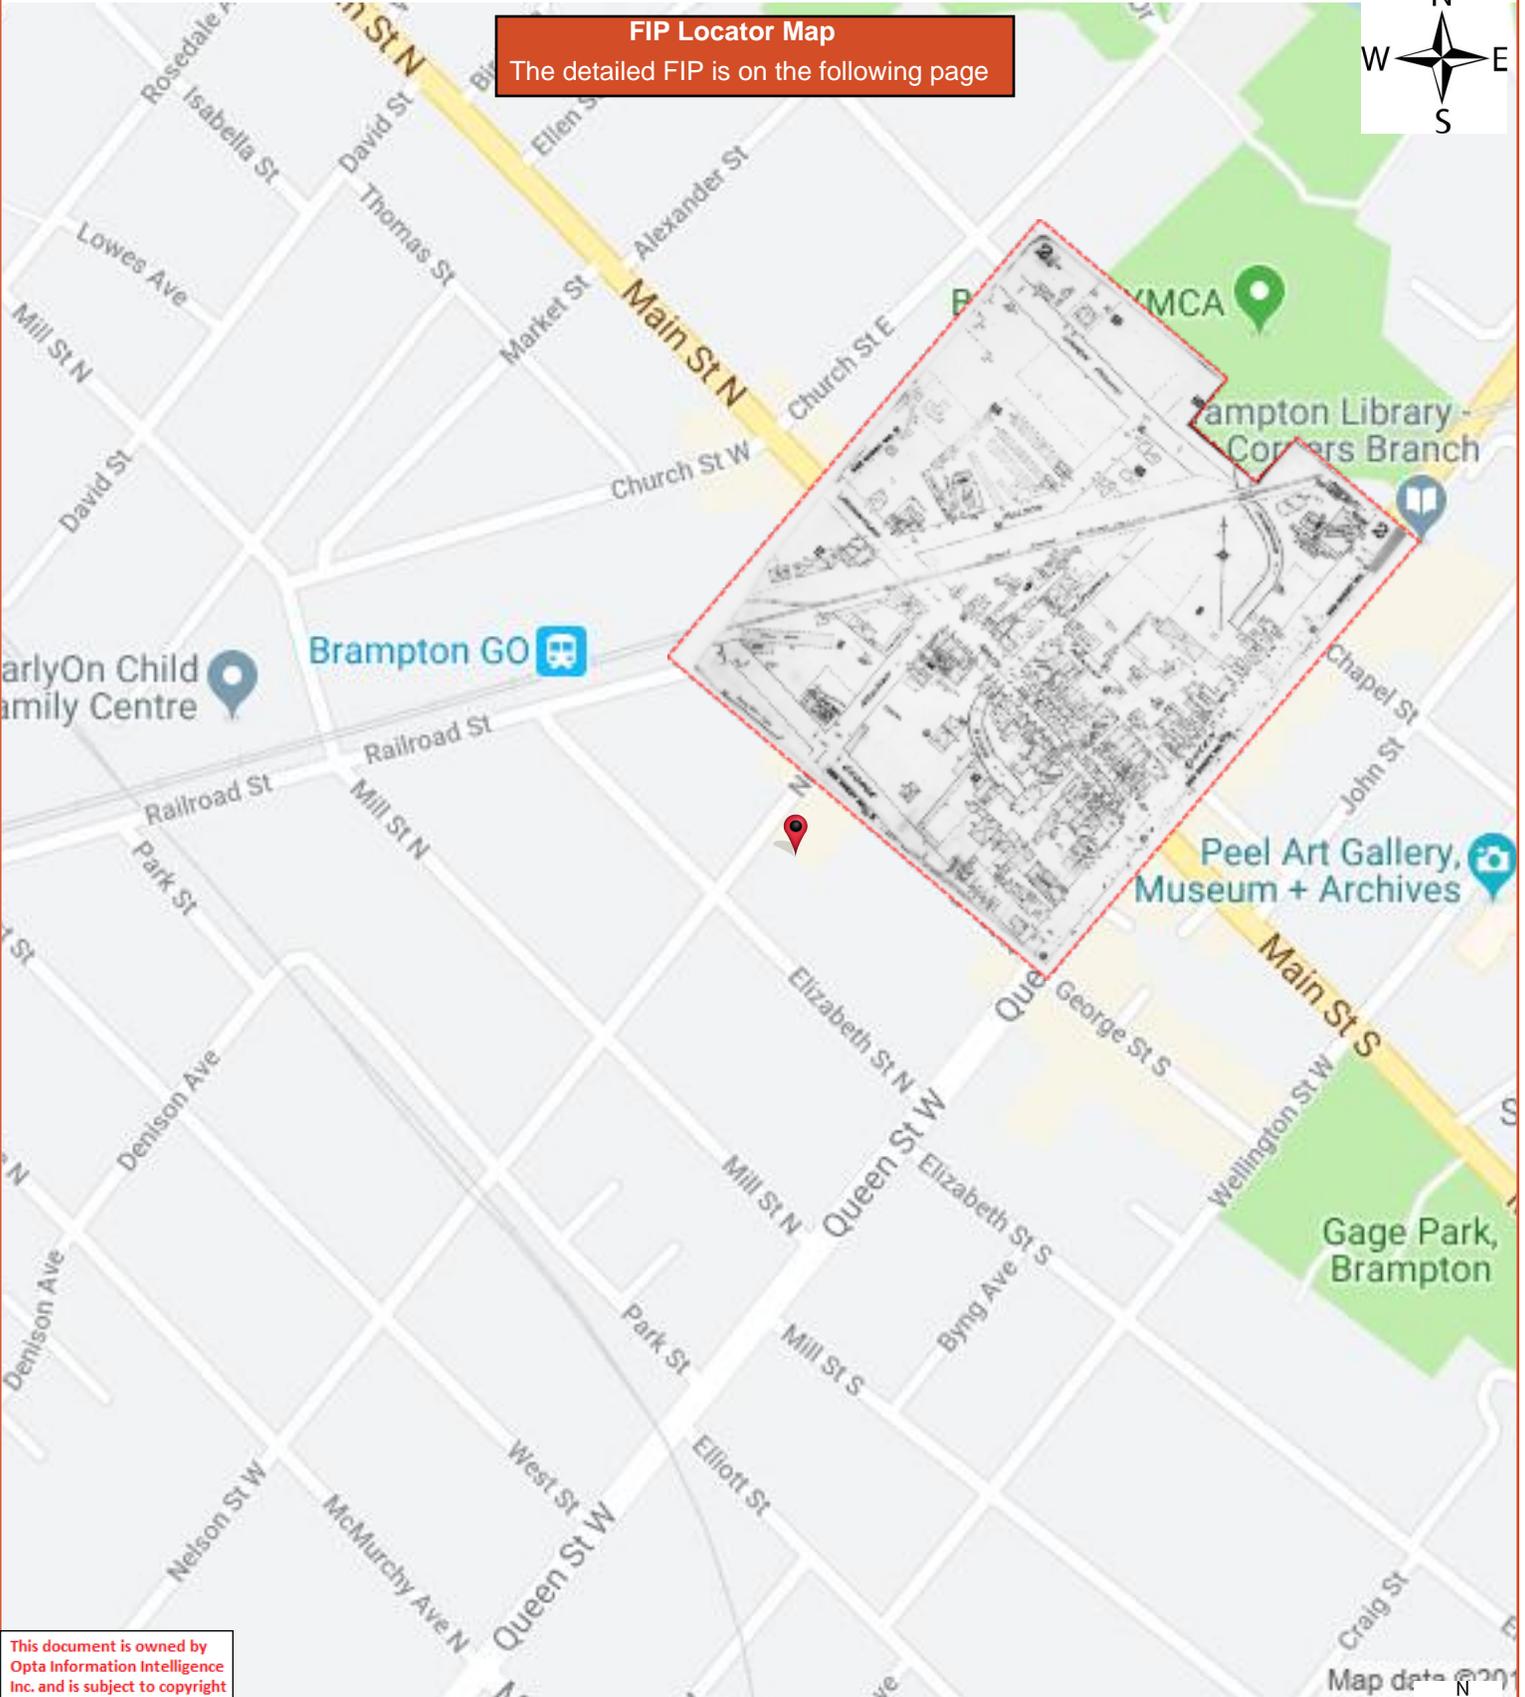

In the event of any conflicts or inconsistencies between the provisions hereof and the Reports, the rights and obligations of the parties shall be deemed to be governed by the request form, which shall be the paramount document.

### Law

This agreement shall be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.

# RISK BASIC SURVEY REPORT Report - 2010 T TANDOORI RESTAURANT INC. 31 George Street North BRAMPTON ON L6R1R3

# Risk Basic Survey Report

## REGULAR REVIEW REQUIRED

### Loss Control Services

Company Name T. TANDOORI RESTAURANT INC.  
 Location 31 GEORGE ST N  
 BRAMPTON, ON  
 L6X 1R3

Policy  
 Date of Survey 05/10/2010  
 Consultant TOMMY HAZELWOOD  
 Contact at Risk Tara Singh - Business Owner

### SUMMARY

Construction Class	4	FUS Grade	3	Industry Code	5812
Spinkler Protection	NONE	Hydrants < 150 m	YES	Fire Hall < 5 km	YES
Property/All Risk	Loss Exposure	LOW	Deficiencies	NONE	
Crime	Loss Exposure	LOW	Deficiencies	NONE	
Liability	Loss Exposure	LOW	Deficiencies	NONE	

Moral Hazard NO

Overall Assessment ACCEPTABLE  
 Requirements COMPULSORY REQUIREMENTS ARE AS FOLLOW

Before the restaurant opens:  
 1) The fixed extinguishing system requires servicing,  
 2) There should be a Class K extinguisher in the kitchen,  
 3) The portable fire extinguishers should be serviced,  
 4) The exhaust duct should be cleaned before opening.

Recommendations NONE  
 Follow-up Plan REQUEST RESURVEY AS PER ORDERING GUIDELINES

Additional Comments The insured will be opening a licensed Indian Restaurant in November 2010 with seating for 110 people at tables and chairs, central located bar and kitchen in the back. At the time of the inspection there were 3 issues before opening 1) the fixed extinguishing system needs to be serviced, 2) There needs to be a Class K extinguisher in the kitchen, 3) The portable fire extinguishers need to be serviced. All products will be stored off the floor in coolers and on shelves.

There were no trip or fall hazards noted inside or outside the risk at the time of the inspection.

This report and all risk improvement measures made herein are solely for the Insured's confidential consideration. The report should not, in any fashion, be used or considered by persons or entities other than the Insured. The information contained in this report is based on conditions and practices observed at the time of the visit and information shared by management and personnel. It does not, in any way, purport to identify all hazards or deficiencies, or imply that other hazards or deficiencies do not exist. No representation is made by RSA that the Insured is in compliance with any governmental regulatory or other requirement, law, standard or practice. Furthermore, RSA does not represent that the implementation of any measures will necessarily eliminate the risk of loss or exposure that the Insured may face. RSA does not assume any responsibility or legal liability for the outcomes directly or indirectly relating to or arising from its risk improvement measures. RSA is a registered trade name of Royal & Sun Alliance Insurance Company of Canada. "RSA" and the RSA logo are trademarks used under license from RSA Insurance Group plc.

## Risk Improvement Measures

### Loss Control Services

Name of Broker TANGRI BMT INSURANCE BROKERS

#### SUBJECT

Name of Client T. TANDOORI RESTAURANT INC.  
Location Visited 31 GEORGE ST N  
BRAMPTON, ON  
L6X 1R3  
Policy No. COM037236977  
Date of Survey 05/10/2010  
Contact at Risk Tara Singh - Business Owner

The following risk improvement measures are offered as a result of a loss control survey of the above noted location on behalf of Royal & Sun Alliance Insurance Company of Canada. They are intended to assist your client in the development and maintenance of good loss control practices, as well as aid our underwriters in the evaluation of the business, for insurance purposes.

Those risk improvement measures identified as "Requirements" are considered compulsory and should be addressed without delay. Failure to promptly address these requirements may not only potentially expose your client's risk to adverse loss but may also affect insurance coverage.

Importance	Number	Recommendation
▶ REQUIREMENT	Important	The entire exhaust system above the commercial cooking equipment in the kitchen of should be inspected by a properly trained qualified company or person(s) on a semi-annual basis in compliance with NFPA #96 "Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations" requirements, there is no evidence of this procedure being done in recent times. Removal of built up grease deposits inside the duct work will result in a decreased risk of fire.
▶ REQUIREMENT	Important	The current multi purpose portable fire extinguisher in the kitchen area should be replaced with an Underwriters' Laboratories of Canada (ULC) or equivalent labeled Class K portable fire extinguisher in compliance with NFPA #10, "Standard for Portable Fire Extinguishers", requirements.
▶ REQUIREMENT	Important	There should be one, serviced, 2A10BC portable fire extinguisher installed for every 279 sq m (3,000 sq ft) for every floor in compliance with NFPA #10, "Standard for Portable Fire Extinguishers", requirements.
▶ REQUIREMENT	Important	The automatic fixed fire extinguishing system protecting the restaurant cooking appliances should be serviced on a semi-annual basis by an authorized service contractor in order to ensure proper operation during fire emergencies and to help meet

NFPA #96, "Standard for Ventilation Control and Fire Protection of Commercial Cooking Operations", requirements.

To ensure affirmative action are promptly taken we would appreciate receiving a response with respect to your client's plans for the completion of the above noted measures within 30 days of receipt. Please direct your response to the office noted below.

Yours truly,

RSA

# Multirisk Report - 1996 VINCE GIAQUINTO 31 George Street North BRAMPTON ON L6R1R3

Ontario Branch  
Confidential Report

MULTIRISK SURVEY

Insured: VINCE GIAQUINTO

Location Surveyed: 31 GEORGE N ST  
BRAMPTON, ONTARIO  
L6T 1R3

Person Contacted: Mr. Vince Giaquinto, Proprietor  
Telephone Number: (905) 452-1844

Policy Number: 9054708400  
AIS Reference: 10371187

Surveyed by: Jamie Stainton  
Date of Survey: 1996.07.04

Committed to Service Excellence

NOTE: The sole purpose of this report is to provide insurance pricing and underwriting information about the particular insured and location named. Only the person requesting this survey will receive a copy of the report, and IAO asks that it be kept strictly confidential. This report does not guarantee compliance with any standards or with any federal, provincial or municipal codes, ordinances or regulations. Tests of fire and other protection equipment have not been conducted or witnessed during this survey.

IAO reports, prepared in compliance with commonly accepted risk control standards existing at the time services are rendered, are developed from a survey of the premises and/or from data supplied by or on behalf of the Purchaser. IAO does not purport to list all hazards. While changes and modifications, referred to in the reports are designed to upgrade protection and loss prevention of the premises, IAO assumes no responsibility for management and control of these activities. IAO will not be responsible to the Purchaser for any loss or damages, whether consequential or other, however caused, incurred or suffered, as a result of the services being provided.

M U L T I R I S K - F I R E , L I A B I L I T Y A N D  
B A S I C C R I M E  
-----

OCCUPANCY:

The insured is a tenant at this location. They have been in operation since 1996 and at this location for 3 year(s). They occupy 326 sq. m and are the major occupant, having 6 employees. The premises are in good condition. The insured is interested in loss prevention, however there have not been any losses during the last 3 years.

\* Occupancy Description (Insured / major tenant if insured is non-occupant)

Restaurant. There is a dining room and lounge at the front and kitchen at the rear. There is an outside terrace at the front of the building.

\* Other Classes of Occupants

Apartments at the second floor.

\* Undersirable Features

None

It is recommended that this location be resurveyed in 2 year(s).

-----

BUILDING:

\* Built - 1966 Height: Storey(s) (excluding basement) - 1 & 2

\* There are no additions.

\* There are no renovations.

\* Building condition - Good

\* Area: Ground Floor - 684 sq. m Total (including basement) - 1028 sq. m

-----

BASIC CONSTRUCTION:

\* Walls - 70% Masonry - Concrete blocks  
30% Masonry - Concrete blocks, brick faced

\* Floors - (excluding basement) 50% Wood joist; 50% Concrete

\* Roof - 100% - Wood joist  
- Surface material(s) - Tar and gravel  
- Roof replaced, unable to determine when.

INTERIOR FINISH:

- \* Walls - 90% non-combustible  
- 10% open
- \* Ceilings - 100% non-combustible

-----

BASEMENTS: None

VERTICAL OPENINGS:

- \* Stairs - Protection open

MEZZANINE: None

OUTBUILDINGS: None

-----

HEATING:

- \* Roof Mounted Units - 100% - Natural gas
  - Upgraded in 1993, 100% replaced.
  - Installation appears safe
- \* Fuel Tanks/Supply:
  - Supply - UG Natural Gas Connection
- \* Chimneys:
  - ULC Factory Built - Standard

-----

ELECTRICAL:

- \* Condition - Good and appeared safe at the time of the survey.
- \* Wiring - Conduit, BX
- \* Overcurrent protection - Circuit Breakers.
- \* Electrical system - Original installation.

-----

PLUMBING:

- \* Condition - Good at the time of the survey.
- \* Piping is Copper
- \* Plumbing - Original installation.

-----

EXPOSURES: (within 15m of the risk):

- \* FRONT: OPEN
- \* REAR: OPEN
- \* LEFT: OPEN
- \* RIGHT: TO TENANT
  - Construction - Masonry.
  - Occupancy - Vacant.
  - Distance - 0 m Height - 2 storeys
  - Protection - Non-Sprinklered Grading - N/A

-----

MUNICIPAL PROTECTION:

- \* The FUS Public Fire Protection Classification is 3
- \* Responding (career) fire department Brampton
- \* Distance from risk Less than 2.5 km
- \* Access via Paved roads. Year-round.
  
- \* The building itself is easily accesible to the fire department.

<a href="#">23</a>	3 of 3	<i>N/96.1</i>	<i>212.8 / -1.39</i>	<b>Brampton Gas Works</b> <b>Northeast corner of Nelson St and George St</b> <b>Brampton ON</b>	<b>COAL</b>
<b>Facility Type:</b> <b>Size:</b> <b>NTS Map Sheet:</b> <b>Planned Land Use:</b> <b>Present Land Use:</b> <b>Landuse Adj Property:</b> <b>Underground Utilities:</b> <b>Soil Conditions:</b> <b>Site Access:</b> <b>Operating Period:</b> <b>Surface Water:</b> <b>Surface Water Prox:</b> <b>Surface Water Use:</b> <b>Groundwater Prox:</b> <b>Groundwater Use:</b> <b>Existing Wells Prox:</b> <b>Historical Map/Photo:</b> <b>Operators:</b> <b>Present Occupants:</b> <b>Excavation History:</b>  <b>Visible Wastes:</b> <b>Odour:</b> <b>Water Pollution:</b> <b>Site Investigations:</b> <b>Comments/Remarks:</b> <b>Site Description:</b>		Assumed coal gasification Small 0.1 hectares 30 M/12 As is Commercial building (2 storey with basement) N - City of Brampton parking lot E. - auto sales, S & W - commercial bldgs, federal government office building Storm and sanitary sewers, phone lines, water mains and gas lines along Nelson St. & George St. 1.5 m fill over clay Uncontrolled 1888-1917? Less than 30 years Etobicoke Creek; Fletcher's Creek 300 m east; 300 m west Recreational None reported None No wells in area 1917 - fire insurance plan (Regional Collection, Univ. of Western Ontario), Sheet 2 and general plan Brampton Gas Co. (1888 - 1902); the Equitable Gas Co. (1903 - 1917) Private Owner (commercial building) Coal yard north of site excavated and 1.5 m of fill removed (late 1986); commercial building 3 m deep (1957) both with no wastes reported None reported or observed None reported or observed None reported or observed None known Former coal yards north of plant site, now City of Brampton parking lot The Brampton gas works was a small manufactured gas plant that operated for less than thirty years at the northeast corner of Nelson and George Streets in the old town of Brampton. The plant was likely a coal carbonization facility which was initially operated by Brampton Gas Co. (1888-1902) and later (1903-1917?) by the Equitable Gas Co. Ltd. The layout of the plant is shown on a 1917 fire insurance plan from the Regional Collection of the University of Western Ontario. The site is now occupied by a two-story commercial office building with basement that was constructed in 1957. Adjoining property uses include a City of Brampton parking lot located north of the site; a series of commercial land uses including federal government buildings; Brampton Mid Center Mall; auto sales and apartments. No groundwater use is reported in this area and the closest surface water bodies are Etobicoke Creek and Fletcher's Creek located approximately 900 m east and west, respectively, of the site.			
<b>Potential Environ Impact:</b>		No significant environmental impact or adverse health effect is perceived for this site. The small plant size (only a 56 m3 capacity gas holding tank is evident on the 1917 fire insurance plan) and short operating period suggests that a relatively small volume of waste products were likely produced. It is reported by the property owner that during the excavation for construction of the building (1957) no tars or oily sludges were encountered in the subsurface. Recent inspections of some of the basements in this building showed no visible or olfactory evidence of gas plant wastes. Also during 1986, the City of Brampton excavated about 1.5 m of fill from the former coal yards located immediately north of the plant and did not observe any oily wastes or odors. Inspections of the basements in the buildings of the surrounding properties also showed no evidence of seepage or odors.			
<b>Offsite Disposal Areas:</b>		No known sites used during plant operation. Soil removed during 1986 excavation of coal yard used as fill in Nursery on Creditview Rd and on property

## Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. **Note:** Databases denoted with " \* " indicates that the database will no longer be updated. See the individual database description for more information.

### **Abandoned Aggregate Inventory:**

Provincial

[AAGR](#)

The MAAP Program maintains a database of abandoned pits and quarries. Please note that the database is only referenced by lot and concession and city/town location. The database provides information regarding the location, type, size, land use, status and general comments.\*

**Government Publication Date: Sept 2002\***

### **Aggregate Inventory:**

Provincial

[AGR](#)

The Ontario Ministry of Natural Resources maintains a database of all active pits and quarries. The database provides information regarding the registered owner/operator, location name, operation type, approval type, and maximum annual tonnage.

**Government Publication Date: Up to Sep 2020**

### **Abandoned Mine Information System:**

Provincial

[AMIS](#)

The Abandoned Mines Information System contains data on known abandoned and inactive mines located on both Crown and privately held lands. The information was provided by the Ministry of Northern Development and Mines (MNDM), with the following disclaimer: "the database provided has been compiled from various sources, and the Ministry of Northern Development and Mines makes no representation and takes no responsibility that such information is accurate, current or complete". Reported information includes official mine name, status, background information, mine start/end date, primary commodity, mine features, hazards and remediation.

**Government Publication Date: 1800-Oct 2018**

### **Anderson's Waste Disposal Sites:**

Private

[ANDR](#)

The information provided in this database was collected by examining various historical documents which aimed to characterize the likely position of former waste disposal sites from 1860 to present. The research initiative behind the creation of this database was to identify those sites that are missing from the Ontario MOE Waste Disposal Site Inventory, as well as to provide revisions and corrections to the positions and descriptions of sites currently listed in the MOE inventory. In addition to historic waste disposal facilities, the database also identifies certain auto wreckers and scrap yards that have been extrapolated from documentary sources. Please note that the data is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

**Government Publication Date: 1860s-Present**

### **Aboveground Storage Tanks:**

Provincial

[AST](#)

Historical listing of aboveground storage tanks made available by the Department of Natural Resources and Forestry. Includes tanks used to hold water or petroleum. This dataset has been retired as of September 25, 2014 and will no longer be updated.

**Government Publication Date: May 31, 2014**

### **Automobile Wrecking & Supplies:**

Private

[AUWR](#)

This database provides an inventory of known locations that are involved in the scrap metal, automobile wrecking/recycling, and automobile parts & supplies industry. Information is provided on the company name, location and business type.

**Government Publication Date: 1999-Dec 31, 2020**

### **Borehole:**

Provincial

[BORE](#)

A borehole is the generalized term for any narrow shaft drilled in the ground, either vertically or horizontally. The information here includes geotechnical investigations or environmental site assessments, mineral exploration, or as a pilot hole for installing piers or underground utilities. Information is from many sources such as the Ministry of Transportation (MTO) boreholes from engineering reports and projects from the 1950 to 1990's in Southern Ontario. Boreholes from the Ontario Geological Survey (OGS) including The Urban Geology Analysis Information System (UGAIS) and the York Peel Durham Toronto (YPDT) database of the Conservation Authority Moraine Coalition. This database will include fields such as location, stratigraphy, depth, elevation, year drilled, etc. For all water well data or oil and gas well data for Ontario please refer to WWIS and OOGW.

**Government Publication Date: 1875-Jul 2018**

**Certificates of Approval:**

Provincial CA

This database contains the following types of approvals: Air & Noise, Industrial Sewage, Municipal & Private Sewage, Waste Management Systems and Renewable Energy Approvals. The MOE in Ontario states that any facility that releases emissions to the atmosphere, discharges contaminants to ground or surface water, provides potable water supplies, or stores, transports or disposes of waste, must have a Certificate of Approval before it can operate lawfully. Fields include approval number, business name, address, approval date, approval type and status. This database will no longer be updated, as CofA's have been replaced by either Environmental Activity and Sector Registry (EASR) or Environmental Compliance Approval (ECA). Please refer to those individual databases for any information after Oct.31, 2011.

**Government Publication Date: 1985-Oct 30, 2011\***

**Dry Cleaning Facilities:**

Federal CDRY

List of dry cleaning facilities made available by Environment and Climate Change Canada. Environment and Climate Change Canada's Tetrachloroethylene (Use in Dry Cleaning and Reporting Requirements) Regulations (SOR/2003-79) are intended to reduce releases of tetrachloroethylene to the environment from dry cleaning facilities.

**Government Publication Date: Jan 2004-Dec 2019**

**Commercial Fuel Oil Tanks:**

Provincial CFOT

Locations of commercial underground fuel oil tanks. This is not a comprehensive or complete inventory of commercial fuel tanks in the province; this listing is a copy of records of registered commercial underground fuel oil tanks obtained under Access to Public Information.

Note that the following types of tanks do not require registration: waste oil tanks in apartments, office buildings, residences, etc.; aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2021**

**Chemical Manufacturers and Distributors:**

Private CHEM

This database includes information from both a one time study conducted in 1992 and private source and is a listing of facilities that manufacture or distribute chemicals. The production of these chemical substances may involve one or more chemical reactions and/or chemical separation processes (i.e. fractionation, solvent extraction, crystallization, etc.).

**Government Publication Date: 1999-Jan 31, 2020**

**Chemical Register:**

Private CHM

This database includes a listing of locations of facilities within the Province or Territory that either manufacture and/or distributes chemicals.

**Government Publication Date: 1999-Dec 31, 2020**

**Compressed Natural Gas Stations:**

Private CNG

Canada has a network of public access compressed natural gas (CNG) refuelling stations. These stations dispense natural gas in compressed form at 3,000 pounds per square inch (psi), the pressure which is allowed within the current Canadian codes and standards. The majority of natural gas refuelling is located at existing retail gasoline that have a separate refuelling island for natural gas. This list of stations is made available by the Canadian Natural Gas Vehicle Alliance.

**Government Publication Date: Dec 2012 -Aug 2021**

**Inventory of Coal Gasification Plants and Coal Tar Sites:**

Provincial COAL

This inventory includes both the "Inventory of Coal Gasification Plant Waste Sites in Ontario-April 1987" and the Inventory of Industrial Sites Producing or Using Coal Tar and Related Tars in Ontario-November 1988) collected by the MOE. It identifies industrial sites that produced and continue to produce or use coal tar and other related tars. Detailed information is available and includes: facility type, size, land use, information on adjoining properties, soil condition, site operators/occupants, site description, potential environmental impacts and historic maps available. This was a one-time inventory.\*

**Government Publication Date: Apr 1987 and Nov 1988\***

**Compliance and Convictions:**

Provincial CONV

This database summarizes the fines and convictions handed down by the Ontario courts beginning in 1989. Companies and individuals named here have been found guilty of environmental offenses in Ontario courts of law.

**Government Publication Date: 1989-Jul 2021**

**Certificates of Property Use:**

Provincial CPU

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all CPU's on the registry such as (EPA s. 168.6) - Certificate of Property Use.

**Government Publication Date: 1994- Aug 31, 2021**

**Drill Hole Database:**

Provincial [DRL](#)

The Ontario Drill Hole Database contains information on more than 113,000 percussion, overburden, sonic and diamond drill holes from assessment files on record with the department of Mines and Minerals. Please note that limited data is available for southern Ontario, as it was the last area to be completed. The database was created when surveys submitted to the Ministry were converted in the Assessment File Research Image Database (AFRI) project. However, the degree of accuracy (coordinates) as to the exact location of drill holes is dependent upon the source document submitted to the MNDM. Levels of accuracy used to locate holes are: centering on the mining claim; a sketch of the mining claim; a 1:50,000 map; a detailed company map; or from submitted a "Report of Work".

**Government Publication Date: 1886 - Sep 2020**

**Delisted Fuel Tanks:**

Provincial [DTNK](#)

List of fuel storage tank sites that were once found in - and have since been removed from - the list of fuel storage tanks made available by the regulatory agency under Access to Public Information.

**Government Publication Date: May 31, 2021**

**Environmental Activity and Sector Registry:**

Provincial [EASR](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. The EASR allows businesses to register certain activities with the ministry, rather than apply for an approval. The registry is available for common systems and processes, to which preset rules of operation can be applied. The EASR is currently available for: heating systems, standby power systems and automotive refinishing. Businesses whose activities aren't subject to the EASR may apply for an ECA (Environmental Compliance Approval), Please see our ECA database.

**Government Publication Date: Oct 2011- Aug 31, 2021**

**Environmental Registry:**

Provincial [EBR](#)

The Environmental Registry lists proposals, decisions and exceptions regarding policies, Acts, instruments, or regulations that could significantly affect the environment. Through the Registry, thirteen provincial ministries notify the public of upcoming proposals and invite their comments. For example, if a local business is requesting a permit, license, or certificate of approval to release substances into the air or water; these are notified on the registry. Data includes: Approval for discharge into the natural environment other than water (i.e. Air) - EPA s. 9, Approval for sewage works - OWRA s. 53(1), and EPA s. 27 - Approval for a waste disposal site. For information regarding Permit to Take Water (PTTW), Certificate of Property Use (CPU) and (ORD) Orders please refer to those individual databases.

**Government Publication Date: 1994- Aug 31, 2021**

**Environmental Compliance Approval:**

Provincial [ECA](#)

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. In the past, a business had to apply for multiple approvals (known as certificates of approval) for individual processes and pieces of equipment. Today, a business either registers itself, or applies for a single approval, depending on the types of activities it conducts. Businesses whose activities aren't subject to the EASR may apply for an ECA. A single ECA addresses all of a business's emissions, discharges and wastes. Separate approvals for air, noise and waste are no longer required. This database will also include Renewable Energy Approvals. For certificates of approval prior to Nov 1st, 2011, please refer to the CA database. For all Waste Disposal Sites please refer to the WDS database.

**Government Publication Date: Oct 2011- Aug 31, 2021**

**Environmental Effects Monitoring:**

Federal [EEM](#)

The Environmental Effects Monitoring program assesses the effects of effluent from industrial or other sources on fish, fish habitat and human usage of fisheries resources. Since 1992, pulp and paper mills have been required to conduct EEM studies under the Pulp and Paper Effluent Regulations. This database provides information on the mill name, geographical location and sub-lethal toxicity data.

**Government Publication Date: 1992-2007\***

**ERIS Historical Searches:**

Private [EHS](#)

ERIS has compiled a database of all environmental risk reports completed since March 1999. Available fields for this database include: site location, date of report, type of report, and search radius. As per all other databases, the ERIS database can be referenced on both the map and "Statistical Profile" page.

**Government Publication Date: 1999-Jun 30, 2021**

**Environmental Issues Inventory System:**

Federal [EIIS](#)

The Environmental Issues Inventory System was developed through the implementation of the Environmental Issues and Remediation Plan. This plan was established to determine the location and severity of contaminated sites on inhabited First Nation reserves, and where necessary, to remediate those that posed a risk to health and safety; and to prevent future environmental problems. The EIIS provides information on the reserve under investigation, inventory number, name of site, environmental issue, site action (Remediation, Site Assessment), and date investigation completed.

**Government Publication Date: 1992-2001\***

**Emergency Management Historical Event:**

Provincial **EMHE**

List of locations of historical occurrences of emergency events, including those assigned to the Ministry of Natural Resources by Order-In-Council (OIC) under the Emergency Management and Civil Protection Act, as well as events where MNR provided requested emergency response assistance. Many of these events will have involved community evacuations, significant structural loss, and/or involvement of MNR emergency response staff. These events fall into one of ten (10) type categories: Dam Failure; Drought / Low Water; Erosion; Flood; Forest Fire; Soil and Bedrock Instability; Petroleum Resource Center Event, EMO Requested Assistance, Continuity of Operations Event, Other Requested Assistance. EMHE record details are reproduced by ERIS under License with the Ontario Ministry of Natural Resources © Queen's Printer for Ontario, 2017.

**Government Publication Date: Dec 31, 2016**

**Environmental Penalty Annual Report:**

Provincial **EPAR**

This database contains data from Ontario's annual environmental penalty report published by the Ministry of the Environment and Climate Change. These reports provide information on environmental penalties for land / water violations issued to companies in one of the nine industrial sectors covered by the Municipal Industrial Strategy for Abatement (MISA) regulations.

**Government Publication Date: Jan 1, 2011 - Dec 31, 2020**

**List of Expired Fuels Safety Facilities:**

Provincial **EXP**

List of facilities and tanks for which there was once a fuel registration. This is not a comprehensive or complete inventory of expired tanks/tank facilities in the province; this listing is a copy of previously registered tanks and facilities obtained under Access to Public Information. Includes private fuel outlets, bulk plants, fuel oil tanks, gasoline stations, marinas, propane filling stations, liquid fuel tanks, piping systems, etc; includes tanks which have been removed from the ground.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2020**

**Federal Convictions:**

Federal **FCON**

Environment Canada maintains a database referred to as the "Environmental Registry" that details prosecutions under the Canadian Environmental Protection Act (CEPA) and the Fisheries Act (FA). Information is provided on the company name, location, charge date, offence and penalty.

**Government Publication Date: 1988-Jun 2007\***

**Contaminated Sites on Federal Land:**

Federal **FCS**

The Federal Contaminated Sites Inventory includes information on known federal contaminated sites under the custodianship of departments, agencies and consolidated Crown corporations as well as those that are being or have been investigated to determine whether they have contamination arising from past use that could pose a risk to human health or the environment. The inventory also includes non-federal contaminated sites for which the Government of Canada has accepted some or all financial responsibility. It does not include sites where contamination has been caused by, and which are under the control of, enterprise Crown corporations, private individuals, firms or other levels of government. Includes fire training sites and sites at which Per- and Polyfluoroalkyl Substances (PFAS) are a concern.

**Government Publication Date: Jun 2000-Aug 2021**

**Fisheries & Oceans Fuel Tanks:**

Federal **FOFT**

Fisheries & Oceans Canada maintains an inventory of aboveground & underground fuel storage tanks located on Fisheries & Oceans property or controlled by DFO. Our inventory provides information on the site name, location, tank owner, tank operator, facility type, storage tank location, tank contents & capacity, and date of tank installation.

**Government Publication Date: 1964-Sep 2019**

**Federal Identification Registry for Storage Tank Systems (FIRSTS):**

Federal **FRST**

A list of federally regulated Storage tanks from the Federal Identification Registry for Storage Tank Systems (FIRSTS). FIRSTS is Environment and Climate Change Canada's database of storage tank systems subject to the Storage Tank for Petroleum Products and Allied Petroleum Products Regulations. The main objective of the Regulations is to prevent soil and groundwater contamination from storage tank systems located on federal and aboriginal lands. Storage tank systems that do not have a valid identification number displayed in a readily visible location on or near the storage tank system may be refused product delivery.

**Government Publication Date: May 31, 2018**

**Fuel Storage Tank:**

Provincial **FST**

List of registered private and retail fuel storage tanks. This is not a comprehensive or complete inventory of private and retail fuel storage tanks in the province; this listing is a copy of registered private and retail fuel storage tanks, obtained under Access to Public Information.

Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2021**

**Fuel Storage Tank - Historic:**

Provincial

[FSTH](#)

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks. Public records of private fuel storage tanks are only available since the registration became effective in September 1989. This information is now collected by the Technical Standards and Safety Authority.

**Government Publication Date: Pre-Jan 2010\***

**Ontario Regulation 347 Waste Generators Summary:**

Provincial

[GEN](#)

Regulation 347 of the Ontario EPA defines a waste generation site as any site, equipment and/or operation involved in the production, collection, handling and/or storage of regulated wastes. A generator of regulated waste is required to register the waste generation site and each waste produced, collected, handled, or stored at the site. This database contains the registration number, company name and address of registered generators including the types of hazardous wastes generated. It includes data on waste generating facilities such as: drycleaners, waste treatment and disposal facilities, machine shops, electric power distribution etc. This information is a summary of all years from 1986 including the most currently available data. Some records may contain, within the company name, the phrase "See & Use..." followed by a series of letters and numbers. This occurs when one company is amalgamated with or taken over by another registered company. The number listed as "See & Use", refers to the new ownership and the other identification number refers to the original ownership. This phrase serves as a link between the 2 companies until operations have been fully transferred.

**Government Publication Date: 1986-Apr 30, 2021**

**Greenhouse Gas Emissions from Large Facilities:**

Federal

[GHG](#)

List of greenhouse gas emissions from large facilities made available by Environment Canada. Greenhouse gas emissions in kilotonnes of carbon dioxide equivalents (kt CO2 eq).

**Government Publication Date: 2013-Dec 2019**

**TSSA Historic Incidents:**

Provincial

[HINC](#)

List of historic incidences of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen recorded by the TSSA in their previous incident tracking system. The TSSA's Fuels Safety Program administers the Technical Standards & Safety Act 2000, providing fuel-related safety services associated with the safe transportation, storage, handling and use of fuels such as gasoline, diesel, propane, natural gas and hydrogen. Under this Act, the TSSA regulates fuel suppliers, storage facilities, transport trucks, pipelines, contractors and equipment or appliances that use fuels. Records are not verified for accuracy or completeness. This is not a comprehensive or complete inventory of historical fuel spills and leaks in the province. This listing is a copy of the data captured at one moment in time and is hence limited by the record date provided here.

**Government Publication Date: 2006-June 2009\***

**Indian & Northern Affairs Fuel Tanks:**

Federal

[IAFT](#)

The Department of Indian & Northern Affairs Canada (INAC) maintains an inventory of aboveground & underground fuel storage tanks located on both federal and crown land. Our inventory provides information on the reserve name, location, facility type, site/facility name, tank type, material & ID number, tank contents & capacity, and date of tank installation.

**Government Publication Date: 1950-Aug 2003\***

**Fuel Oil Spills and Leaks:**

Provincial

[INC](#)

Listing of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen reported to the Spills Action Centre (SAC). This is not a comprehensive or complete inventory of fuel-related leaks, spills, and incidents in the province; this listing is a copy of incidents reported to the SAC, obtained under Access to Public Information. Includes incidents from fuel-related hazards such as spills, fires, and explosions. Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2021**

**Landfill Inventory Management Ontario:**

Provincial

[LIMO](#)

The Landfill Inventory Management Ontario (LIMO) database is updated every year, as the Ministry of the Environment, Conservation and Parks compiles new and updated information. Includes small and large landfills currently operating as well as those which are closed and historic. Operators of larger landfills provide landfill information for the previous operating year to the ministry for LIMO including: estimated amount of total waste received, landfill capacity, estimated total remaining landfill capacity, fill rates, engineering designs, reporting and monitoring details, size of location, service area, approved waste types, leachate of site treatment, contaminant attenuation zone and more. The small landfills include information such as site owner, site location and certificate of approval # and status.

**Government Publication Date: Feb 28, 2019**

**Canadian Mine Locations:**

Private

[MINE](#)

This information is collected from the Canadian & American Mines Handbook. The Mines database is a national database that provides over 290 listings on mines (listed as public companies) dealing primarily with precious metals and hard rocks. Listed are mines that are currently in operation, closed, suspended, or are still being developed (advanced projects). Their locations are provided as geographic coordinates (x, y and/or longitude, latitude). As of 2002, data pertaining to Canadian smelters and refineries has been appended to this database.

**Government Publication Date: 1998-2009\***

**Mineral Occurrences:**

Provincial [MNR](#)

In the early 70's, the Ministry of Northern Development and Mines created an inventory of approximately 19,000 mineral occurrences in Ontario, in regard to metallic and industrial minerals, as well as some information on building stones and aggregate deposits. Please note that the "Horizontal Positional Accuracy" is approximately +/- 200 m. Many reference elements for each record were derived from field sketches using pace or chain/tape measurements against claim posts or topographic features in the area. The primary limiting factor for the level of positional accuracy is the scale of the source material. The testing of horizontal accuracy of the source materials was accomplished by comparing the plan metric (X and Y) coordinates of that point with the coordinates of the same point as defined from a source of higher accuracy.

**Government Publication Date: 1846-Dec 2020**

**National Analysis of Trends in Emergencies System (NATES):**

Federal [NATE](#)

In 1974 Environment Canada established the National Analysis of Trends in Emergencies System (NATES) database, for the voluntary reporting of significant spill incidents. The data was to be used to assist in directing the work of the emergencies program. NATES ran from 1974 to 1994. Extensive information is available within this database including company names, place where the spill occurred, date of spill, cause, reason and source of spill, damage incurred, and amount, concentration, and volume of materials released.

**Government Publication Date: 1974-1994\***

**Non-Compliance Reports:**

Provincial [NCPL](#)

The Ministry of the Environment provides information about non-compliant discharges of contaminants to air and water that exceed legal allowable limits, from regulated industrial and municipal facilities. A reported non-compliance failure may be in regard to a Control Order, Certificate of Approval, Sectoral Regulation or specific regulation/act.

**Government Publication Date: Dec 31, 2019**

**National Defense & Canadian Forces Fuel Tanks:**

Federal [NDFT](#)

The Department of National Defense and the Canadian Forces maintains an inventory of all aboveground & underground fuel storage tanks located on DND lands. Our inventory provides information on the base name, location, tank type & capacity, tank contents, tank class, date of tank installation, date tank last used, and status of tank as of May 2001. This database will no longer be updated due to the new National Security protocols which have prohibited any release of this database.

**Government Publication Date: Up to May 2001\***

**National Defense & Canadian Forces Spills:**

Federal [NDSP](#)

The Department of National Defense and the Canadian Forces maintains an inventory of spills to land and water. All spill sites have been classified under the "Transportation of Dangerous Goods Act - 1992". Our inventory provides information on the facility name, location, spill ID #, spill date, type of spill, as well as the quantity of substance spilled & recovered.

**Government Publication Date: Mar 1999-Apr 2018**

**National Defence & Canadian Forces Waste Disposal Sites:**

Federal [NDWD](#)

The Department of National Defence and the Canadian Forces maintains an inventory of waste disposal sites located on DND lands. Where available, our inventory provides information on the base name, location, type of waste received, area of site, depth of site, year site opened/closed and status.

**Government Publication Date: 2001-Apr 2007\***

**National Energy Board Pipeline Incidents:**

Federal [NEBI](#)

Locations of pipeline incidents from 2008 to present, made available by the Canada Energy Regulator (CER) - previously the National Energy Board (NEB). Includes incidents reported under the Onshore Pipeline Regulations and the Processing Plant Regulations related to pipelines under federal jurisdiction, does not include incident data related to pipelines under provincial or territorial jurisdiction.

**Government Publication Date: 2008-Jun 30, 2021**

**National Energy Board Wells:**

Federal [NEBP](#)

The NEBW database contains information on onshore & offshore oil and gas wells that are outside provincial jurisdiction(s) and are thereby regulated by the National Energy Board. Data is provided regarding the operator, well name, well ID No./UWI, status, classification, well depth, spud and release date.

**Government Publication Date: 1920-Feb 2003\***

**National Environmental Emergencies System (NEES):**

Federal

NEES

In 2000, the Emergencies program implemented NEES, a reporting system for spills of hazardous substances. For the most part, this system only captured data from the Atlantic Provinces, some from Quebec and Ontario and a portion from British Columbia. Data for Alberta, Saskatchewan, Manitoba and the Territories was not captured. However, NEES is also a repository for previous Environment Canada spill datasets. NEES is composed of the historic datasets ' or Trends ' which dates from approximately 1974 to present. NEES Trends is a compilation of historic databases, which were merged and includes data from NATES (National Analysis of Trends in Emergencies System), ARTS (Atlantic Regional Trends System), and NEES. In 2001, the Emergencies Program determined that variations in reporting regimes and requirements between federal and provincial agencies made national spill reporting and trend analysis difficult to achieve. As a consequence, the department has focused efforts on capturing data on spills of substances which fall under its legislative authority only (CEPA and FA). As such, the NEES database will be decommissioned in December 2004.

**Government Publication Date: 1974-2003\***

**National PCB Inventory:**

Federal

NPCB

Environment Canada's National PCB inventory includes information on in-use PCB containing equipment in Canada including federal, provincial and private facilities. Federal out-of-service PCB containing equipment and PCB waste owned by the federal government or by federally regulated industries such as airlines, railway companies, broadcasting companies, telephone and telecommunications companies, pipeline companies, etc. are also listed. Although it is not Environment Canada's mandate to collect data on non-federal PCB waste, the National PCB inventory includes some information on provincial and private PCB waste and storage sites. Some addresses provided may be Head Office addresses and are not necessarily the location of where the waste is being used or stored.

**Government Publication Date: 1988-2008\***

**National Pollutant Release Inventory:**

Federal

NPRI

Environment Canada has defined the National Pollutant Release Inventory ("NPRI") as a federal government initiative designed to collect comprehensive national data regarding releases to air, water, or land, and waste transfers for recycling for more than 300 listed substances.

**Government Publication Date: 1993-May 2017**

**Oil and Gas Wells:**

Private

OGWE

The Nickle's Energy Group (publisher of the Daily Oil Bulletin) collects information on drilling activity including operator and well statistics. The well information database includes name, location, class, status and depth. The main Nickle's database is updated on a daily basis, however, this database is updated on a monthly basis. More information is available at [www.nickles.com](http://www.nickles.com).

**Government Publication Date: 1988-Feb 28, 2021**

**Ontario Oil and Gas Wells:**

Provincial

OOGW

In 1998, the MNR handed over to the Ontario Oil, Gas and Salt Resources Corporation, the responsibility of maintaining a database of oil and gas wells drilled in Ontario. The OGSR Library has over 20,000+ wells in their database. Information available for all wells in the ERIS database include well owner/operator, location, permit issue date, and well cap date, license No., status, depth and the primary target (rock unit) of the well being drilled. All geology/stratigraphy table information, plus all water table information is also provide for each well record.

**Government Publication Date: 1800-Jan 2021**

**Inventory of PCB Storage Sites:**

Provincial

OPCB

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of PCB storage sites within the province. Ontario Regulation 11/82 (Waste Management - PCB) and Regulation 347 (Generator Waste Management) under the Ontario EPA requires the registration of inactive PCB storage equipment and/or disposal sites of PCB waste with the Ontario Ministry of Environment. This database contains information on: 1) waste quantities; 2) major and minor sites storing liquid or solid waste; and 3) a waste storage inventory.

**Government Publication Date: 1987-Oct 2004; 2012-Dec 2013**

**Orders:**

Provincial

ORD

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all Orders on the registry such as (EPA s. 17) - Order for remedial work, (EPA s. 18) - Order for preventative measures, (EPA s. 43) - Order for removal of waste and restoration of site, (EPA s. 44) - Order for conformity with Act for waste disposal sites, (EPA s. 136) - Order for performance of environmental measures.

**Government Publication Date: 1994-Aug 31, 2021**

**Canadian Pulp and Paper:**

Private

PAP

This information is part of the Pulp and Paper Canada Directory. The Directory provides a comprehensive listing of the locations of pulp and paper mills and the products that they produce.

**Government Publication Date: 1999, 2002, 2004, 2005, 2009-2014**

**Parks Canada Fuel Storage Tanks:**

Federal

PCFT

Canadian Heritage maintains an inventory of known fuel storage tanks operated by Parks Canada, in both National Parks and at National Historic Sites. The database details information on site name, location, tank install/removal date, capacity, fuel type, facility type, tank design and owner/operator.

**Government Publication Date: 1920-Jan 2005\***

**Pesticide Register:**

Provincial PES

The Ontario Ministry of the Environment and Climate Change maintains a database of licensed operators and vendors of registered pesticides.

**Government Publication Date: Oct 2011- Aug 31, 2021**

**Pipeline Incidents:**

Provincial PINC

List of pipeline incidents (strikes, leaks, spills). This is not a comprehensive or complete inventory of pipeline incidents in the province; this listing in an historical copy of records previously obtained under Access to Public Information. Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2021**

**Private and Retail Fuel Storage Tanks:**

Provincial PRT

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks and licensed retail fuel outlets. This database includes an inventory of locations that have gasoline, oil, waste oil, natural gas and/or propane storage tanks on their property. The MCCR no longer collects this information. This information is now collected by the Technical Standards and Safety Authority (TSSA).

**Government Publication Date: 1989-1996\***

**Permit to Take Water:**

Provincial PTTW

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include all PTTW's on the registry such as OWRA s. 34 - Permit to take water.

**Government Publication Date: 1994- Aug 31, 2021**

**Ontario Regulation 347 Waste Receivers Summary:**

Provincial REC

Part V of the Ontario Environmental Protection Act ("EPA") regulates the disposal of regulated waste through an operating waste management system or a waste disposal site operated or used pursuant to the terms and conditions of a Certificate of Approval or a Provisional Certificate of Approval. Regulation 347 of the Ontario EPA defines a waste receiving site as any site or facility to which waste is transferred by a waste carrier. A receiver of regulated waste is required to register the waste receiving facility. This database represents registered receivers of regulated wastes, identified by registration number, company name and address, and includes receivers of waste such as: landfills, incinerators, transfer stations, PCB storage sites, sludge farms and water pollution control plants. This information is a summary of all years from 1986 including the most currently available data.

**Government Publication Date: 1986-1990, 1992-2018**

**Record of Site Condition:**

Provincial RSC

The Record of Site Condition (RSC) is part of the Ministry of the Environment's Brownfields Environmental Site Registry. Protection from environmental cleanup orders for property owners is contingent upon documentation known as a record of site condition (RSC) being filed in the Environmental Site Registry. In order to file an RSC, the property must have been properly assessed and shown to meet the soil, sediment and groundwater standards appropriate for the use (such as residential) proposed to take place on the property. The Record of Site Condition Regulation (O. Reg. 153/04) details requirements related to site assessment and clean up.

RSCs filed after July 1, 2011 will also be included as part of the new (O.Reg. 511/09).

**Government Publication Date: 1997-Sept 2001, Oct 2004-Aug 2021**

**Retail Fuel Storage Tanks:**

Private RST

This database includes an inventory of retail fuel outlet locations (including marinas) that have on their property gasoline, oil, waste oil, natural gas and / or propane storage tanks.

**Government Publication Date: 1999-Dec 31, 2020**

**Scott's Manufacturing Directory:**

Private SCT

Scott's Directories is a data bank containing information on over 200,000 manufacturers across Canada. Even though Scott's listings are voluntary, it is the most comprehensive database of Canadian manufacturers available. Information concerning a company's address, plant size, and main products are included in this database.

**Government Publication Date: 1992-Mar 2011\***

**Ontario Spills:**

Provincial SPL

List of spills and incidents made available the Ministry of the Environment, Conservation and Parks. This database identifies information such as location (approximate), type and quantity of contaminant, date of spill, environmental impact, cause, nature of impact, etc. Information from 1988-2002 was part of the ORIS (Occurrence Reporting Information System). The SAC (Spills Action Centre) handles all spills reported in Ontario. Regulations for spills in Ontario are part of the MOE's Environmental Protection Act, Part X.

**Government Publication Date: 1988-Aug 2020**

**Wastewater Discharger Registration Database:**

Provincial [SRDS](#)

Information under this heading is combination of the following 2 programs. The Municipal/Industrial Strategy for Abatement (MISA) division of the Ontario Ministry of Environment maintained a database of all direct dischargers of toxic pollutants within nine sectors including: Electric Power Generation; Mining; Petroleum Refining; Organic Chemicals; Inorganic Chemicals; Pulp & Paper; Metal Casting; Iron & Steel; and Quarries. All sampling information is now collected and stored within the Sample Result Data Store (SRDS).

**Government Publication Date: 1990-Dec 31, 2018**

**Anderson's Storage Tanks:**

Private [TANK](#)

The information provided in this database was collected by examining various historical documents, which identified the location of former storage tanks, containing substances such as fuel, water, gas, oil, and other various types of miscellaneous products. Information is available in regard to business operating at tank site, tank location, permit year, permit & installation type, no. of tanks installed & configuration and tank capacity. Data contained within this database pertains only to the city of Toronto and is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

**Government Publication Date: 1915-1953\***

**Transport Canada Fuel Storage Tanks:**

Federal [TCFT](#)

List of fuel storage tanks currently or previously owned or operated by Transport Canada. This inventory also includes tanks on The Pickering Lands, which refers to 7,530 hectares (18,600 acres) of land in Pickering, Markham, and Uxbridge owned by the Government of Canada since 1972; properties on this land has been leased by the government since 1975, and falls under the Site Management Policy of Transport Canada, but is administered by Public Works and Government Services Canada. This inventory provides information on the site name, location, tank age, capacity and fuel type.

**Government Publication Date: 1970 - Dec 2020**

**Variations for Abandonment of Underground Storage Tanks:**

Provincial [VAR](#)

Listing of variances granted for storage tank abandonment. This is not a comprehensive or complete inventory of tank abandonment variances in the province; this listing is a copy of tank abandonment variance records previously obtained under Access to Public Information. In Ontario, registered underground storage tanks must be removed within two years of disuse; if removal of a tank is not feasible, an application may be sought for a variance from this code requirement.

Records are not verified for accuracy or completeness.

**Government Publication Date: May 31, 2021**

**Waste Disposal Sites - MOE CA Inventory:**

Provincial [WDS](#)

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of known open (active or inactive) and closed disposal sites in the Province of Ontario. Active sites maintain a Certificate of Approval, are approved to receive and are receiving waste. Inactive sites maintain Certificate(s) of Approval but are not receiving waste. Closed sites are not receiving waste. The data contained within this database was compiled from the MOE's Certificate of Approval database. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number. All new Environmental Compliance Approvals handed out after Oct 31, 2011 for Waste Disposal Sites will still be found in this database.

**Government Publication Date: Oct 2011- Aug 31, 2021**

**Waste Disposal Sites - MOE 1991 Historical Approval Inventory:**

Provincial [WDSH](#)

In June 1991, the Ontario Ministry of Environment, Waste Management Branch, published the "June 1991 Waste Disposal Site Inventory", of all known active and closed waste disposal sites as of October 30st, 1990. For each "active" site as of October 31st 1990, information is provided on site location, site/CA number, waste type, site status and site classification. For each "closed" site as of October 31st 1990, information is provided on site location, site/CA number, closure date and site classification. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number.

**Government Publication Date: Up to Oct 1990\***

**Water Well Information System:**

Provincial [WWIS](#)

This database describes locations and characteristics of water wells found within Ontario in accordance with Regulation 903. It includes such information as coordinates, construction date, well depth, primary and secondary use, pump rate, static water level, well status, etc. Also included are detailed stratigraphy information, approximate depth to bedrock and the approximate depth to the water table.

**Government Publication Date: Apr 30, 2021**

# Definitions

**Database Descriptions:** This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

**Detail Report:** This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

**Distance:** The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

**Direction:** The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

**Elevation:** The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

**Executive Summary:** This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

**Map Key:** The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

**Unplottables:** These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

### **NO RECORD FOUND**

Hello,

Thank you for your request for confirmation of public information.

- We confirm that there are no records in our database of any fuel storage tanks at the subject addresses.

For a further search in our archives please complete our release of public information form found at [https://www.tssa.org/en/about-tssa/release-of-public-information.aspx?\\_mid\\_=392](https://www.tssa.org/en/about-tssa/release-of-public-information.aspx?_mid_=392) and email the completed form to [publicinformationsservices@tssa.org](mailto:publicinformationsservices@tssa.org) along with a fee of \$56.50 (including HST) per location. The fee is payable with credit card (Visa or MasterCard).

Although TSSA believes the information provided pursuant to your request is accurate, please note that TSSA does not warrant this information in any way whatsoever.

Kind regards,

Sherees

## Notice of Collection of Personal Information

Personal information contained on this form is collected pursuant to sections 35-50 and 75(2) of the *Ontario Water Resources Act* and section 16.3 of the *Wells Regulation*. This information will be used for the purpose of maintaining a public record of wells in Ontario. This form and the information contained on the form will be stored in the Ministry's well record database and made publicly available. Questions about this collection should be directed to the Water Well Customer Service Representative at the Wells Help Desk, 125 Resources Road, Toronto Ontario M9P 3V6, at 1-888-396-9355 or [wellshelpdesk@ontario.ca](mailto:wellshelpdesk@ontario.ca).

## Interview and Inspection Records

Note to interview candidate: please provide responses to each question, or note if unknown or not applicable as case may be. If needed, additional comments can be provided on last page.

Site Address:  MTE File No.: \_\_\_\_\_  
Date: \_\_\_\_\_

MTE Representative: \_\_\_\_\_  
Name of Interview Candidate: \_\_\_\_\_  
Title of Interview Candidate: \_\_\_\_\_  
Relationship to the Site: \_\_\_\_\_  
Years Familiar with the Site: \_\_\_\_\_

**Section 1: Owner and Tenant Information**

1.1 Who is/are the current owner(s) of the Site?  
Please provide years or ownership and full legal names (if known).

1.2 Who is/are the current tenant(s) of the Site?  
Please provide a brief description of operations and years or occupancy.

1.3 When was the Site first developed and by whom?  Unknown

1.4 Who is/are the previous owner(s) of the Site?  Unknown  
Please provide years of ownership and full legal names (if known)

1.5 Who is/are the previous tenant(s) of the Site?  Unknown  
Please provide years of occupation and a brief description of operations.

**Section 2: Building Information**

2.1 Are there existing or former buildings at the Site?

- Yes             No

If yes, list and indicate former or existing buildings including year(s) of construction/demolition, construction type, etc.

2.2 Are there any floor plans or engineering drawings for existing or former buildings?

- Yes             No             Unknown             Not Applicable

If yes, please provide.

2.3 Are there any major ongoing or previous renovations to the existing building(s)?

- Yes             No             Unknown             Not Applicable

If yes, describe

2.4 Have any additions been constructed on the existing building(s)?

- Yes             No             Unknown             Not Applicable

If yes, describe.

2.5 Are there heating systems associated with the building(s)?

- Yes             No             Not Applicable

If yes, describe fuel source, type of heating systems, and any waste products. (e.g., combustion gases or ash).

2.6 Are there any current or former heating systems that use fuel oil (furnace oil) as a fuel source?

- Yes       No       Unknown

If yes, describe.

2.7 Are there cooling systems associated with the buildings(s)?

- Yes       No       Unknown

If yes, describe fuel source, type of cooling systems, and any associated ozone- depleting materials.

2.8 Are there any loading docks or shipping/receiving bays?

- Yes       No

If yes, describe.

2.9 Are there any former or current roof leaks?

- Yes       No       Unknown       Not Applicable

If yes, describe.

2.10 Are there any sumps in the building(s)?

- Yes       No       Unknown       Not Applicable

If yes, describe the sump pump discharge.

2.11 Are there any areas of mould/water damage in the building(s)?

- Yes       No       Unknown       Not Applicable

If yes, describe.

2.12 Are there any concerns related to indoor air quality in the building(s)?

- Yes       No       Unknown       Not Applicable

If yes, describe.

2.13 Has testing for radon gas been completed in any building(s) at the Site?

- Yes       No       Unknown

If yes, describe.

2.14 Are there any asbestos, lead, urea foam formaldehyde insulation (UFFI) or PCB-containing materials in the building(s), or any previous activities involving the removal of these substances?

- Yes       No       Not Applicable

If yes, describe.

**Section 3: Site Services**

3.1 Are any underground utility drawings available for the Site?

- Yes       No       Unknown

If yes, describe.

3.2 Are there any easements on the Site (e.g., right-of-way, utility easements related to hydro, gas, telephone, etc.)?

- Yes       No       Unknown

If yes, describe.

3.3 Are there back-up generators or emergency power systems at the Site?

- Yes       No       Unknown

If yes, describe fuel source

3.4 What type of potable water supply is available at the Site?

- Municipal       Private       None

If private, describe water supply wells (number, locations, screen depths) and provide any available well logs or testing information.

3.5 Is a water treatment system present at the Site?

- Yes       No       Unknown

If yes, describe and provide any available testing information and/or regulatory approvals.

3.6 What type of wastewater (sewage) system is available at the Site?

- Municipal       Private       None

If private, describe locations of septic bed and tank, and provide any available permits or testing information.

3.7 Is any pre-treatment of wastewater performed at the Site?

- Yes       No       Unknown

If yes, describe.

3.8 Are there any stormwater management ponds at the Site?

- Yes       No       Unknown

If yes, describe location.

3.9 Are there any catchbasins at the Site?

- Yes       No       Unknown

If yes, describe locations and discharge.

3.10 Are there any problems with Site drainage (e.g., basement flooding, surface water ponding, flooding, etc.)?

- Yes       No       Unknown

If yes, describe.

3.11 Are there any electrical transformers located on the Site?

- Yes       No       Unknown

If yes, who owns them, do they contain PCBs, have they been tested?

3.12 Are there any existing or former rail lines/spurs on the Site?

- Yes       No       Unknown

If yes, describe.

**Section 4: Site Operations**

4.1 Are any plans or drawings available showing areas of production, manufacturing, chemical or waste storage in the buildings or premises?

- Yes       No       Unknown

If yes, describe.

4.2 Are any process, production and maintenance documents available related to site operations?

- Yes       No       Unknown

If yes, please provide.

4.3 Are there any current or previous agricultural activities on the Site?

- Yes       No       Unknown

If yes, approximately what years, what crops, and what pesticides were applied?

4.4 Are there any pesticides/herbicides/sludge applications at the Site?

- Yes       No       Unknown

If yes, when, and what products were used?

4.5 Are there any current or former vehicle maintenance, auto body or machine shop operations at the Site?

- Yes       No       Unknown

If yes, describe how the waste liquid fluids are/were handled?

4.6 Is there any hydraulic lift equipment (e.g., in-ground vehicle hoists, elevators) on the Site?

- Yes       No       Unknown

If yes, describe.

4.7 Is there any former or current equipment, vehicle or plant floor wash down at the Site?

- Yes       No       Unknown

If yes, describe.

4.8 Were there any fires at the Site (e.g., building fires, waste incineration, brush fires, etc.)?

- Yes       No       Unknown

If yes, describe.

4.9 Are there any former or current dust control activities at the Site?

- Yes             No             Unknown

If yes, list dust control methods and products used.

4.10 Has salt or any other de-icing chemical ever been used for winter maintenance of walkways or parking areas?

- Yes             No             Unknown

If yes, describe product used, storage and application practices.

### Section 5: Fuel Storage and Handling

5.1 Are there any aboveground or underground fuel storage tanks located on Site?

- Yes             No             Unknown

If yes, describe type, construction material, secondary containment, size, age, contents of each, and provide any testing and/or TSSA registration information.

5.2 Were any aboveground or underground fuel storage tanks removed in the past?

- Yes             No             Unknown

If yes, describe type, construction material, secondary containment, size, contents of each, date(s) of removal, details of removal.

Please provide any available reports related to tank removal and confirmatory testing.

5.3 Are there any current or former fuel pumps or fuelling systems on the Site?

- Yes             No             Unknown

If yes, describe.

5.4 Are there any jerry cans, drums or totes containing fuel/oil/lubricants on Site?

- Yes       No       Unknown

If yes, describe.

**Section 6: Waste Oils, Chemicals, Liquid Wastes, Solid Wastes**

6.1 Are any waste oils generated and/or stored on Site?

- Yes       No       Unknown

If yes, describe waste storage locations and disposal practices.

6.2 Are there any oil-water separators and/or floor drains at the Site?

- Yes       No       Unknown

If yes, describe location, installation date, source of incoming liquid and effluent discharge location.

6.3 Are any chemicals or solvents stored or used at the Site?

- Yes       No       Unknown

If yes, provide an inventory of chemicals, and describe chemical usage and chemical storage areas.

6.4 Are Material Safety Data Sheets (MSDS) or Safety Data Sheets (SDS) available for any chemical compounds used on the Site?

- Yes       No       Unknown

If yes, provide a complete list of chemical compounds with MSDS or SDS.

6.5 Are any liquid industrial wastes generated at the Site?

- Yes       No       Unknown

If yes, how are they disposed?

6.6 Are waste management records available for the Site, including current and historical waste storage locations and waste generator and waste receiver information maintained pursuant to Regulation 347?

- Yes       No       Unknown

If yes, please describe and provide copies of relevant records.

6.7 Are solid wastes (e.g., scrap, household waste, recycling) generated on-Site?

- Yes       No       Unknown

If yes, describe storage and disposal practices.

6.8 Are batteries (non-household type) used on the Site?

- Yes       No       Unknown

If yes, describe storage and disposal practices.

6.9 Has any liquid or solid waste been dumped, placed or buried on the Site?

- Yes       No       Unknown

If yes, describe.

6.10 Has any soil (fill, gravel, topsoil, etc.) been brought to and deposited on the Site (for construction, grading, filling low areas, berms, etc.)?

- Yes       No       Unknown

If yes, describe.

**Section 7: Spills**

7.1 Are there any records of spills (e.g., chemical, oil) or records of discharges of contaminants?

- Yes       No       Unknown

If yes, describe.

7.2 Are spill prevention and contingency plans available (e.g., secondary containment measures, spill kits, spill response training for employees)?

- Yes       No       Unknown

If yes, describe.

**Section 8: Environmental Compliance**

8.1 Is there any known or suspected soil and/or groundwater contamination at the Site?

- Yes       No       Unknown

If yes, describe.

8.2 Are there any contaminant discharges from the Site to the natural environment (e.g., stack emissions, fugitive air emissions)?

- Yes       No       Unknown

If yes, describe emissions contaminants, type, and operations.

8.3 Is the Site operating under and in accordance with an Environmental Compliance Approval (formerly Certificate of Approval)?

- Yes       No       Unknown

If yes, please describe and provide an Environmental Compliance Approval (ECA) number.

8.4 Is there a Joint Health and Safety Committee?

- Yes       No       Unknown

If yes, do they have any outstanding environmental concerns?

8.5 Are there any current or former regulatory compliance issues (such as zoning, labour or environment) related to the Site?

- Yes       No       Unknown

If yes, describe.

8.6 Are there any previous environmental reports, environmental audit reports or environmental monitoring data (including data created in response to an order or request of the Ministry of the Environment, Conservation and Parks) available for the Site?

- Yes       No       Unknown

If yes, please provide.

8.7 Are there any geotechnical reports for building/development available?

- Yes       No       Unknown

If yes, please provide.

8.8 Are there any property appraisal or insurance inspection reports available?

- Yes       No       Unknown

If yes, please provide.

8.9 Are there any existing monitoring wells on the Site?

- Yes       No       Unknown

If yes, describe.

8.10 Are there any regulatory permits and records available related to potential environmental concerns?

- Yes       No       Unknown

If yes, describe.

8.11 Have any other inspections occurred on the Site (i.e., Ministry of Labour, Ministry of the Environment, Conservation and Parks, Municipality, Insurance Agency, etc.)?

- Yes       No       Unknown

If yes, describe.

8.12 Are there any problems with the neighbouring properties such as chemical storage, contamination, etc.?

- Yes       No       Unknown

If yes, describe.

8.13 Are there any noise or odour problems related to the Site or surrounding neighbouring properties?

- Yes       No       Unknown

If yes, describe.

### Section 1: Site Setting, Occupant Information, and Operations

Provide a sketch in the space below (or attach a site plan) showing topographic conditions and locations of structures, fuel storage tanks, watercourses, ditches, standing water, parking facilities, evidence of asphalt or floor repairs, roads, rights-of-way, and lagoons on or adjacent to the Site.

1.1 Who is/are the current occupant(s)/tenant(s) of the Site?

Provide a brief description of operations and housekeeping observed during the inspection.

1.2 What is the current type of property use (check all that apply)?

- |  |  |
|--|--|
| <input type="checkbox"/> Commercial use            | <input type="checkbox"/> Industrial use                  |
| <input type="checkbox"/> Community use             | <input type="checkbox"/> Residential use                 |
| <input type="checkbox"/> Institutional use         | <input type="checkbox"/> Parkland use                    |
| <input type="checkbox"/> Agricultural or other use | <input type="checkbox"/> Vacant (confirm last known use) |

1.3 Was any evidence observed of the following operations at the Site?

- |  |                              |                             |
|--|------------------------------|-----------------------------|
| Agricultural / Potential Pesticide Use         | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Bulk liquid dispensing (e.g., gasoline outlet) | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Dry Cleaning (Depot or Facility)               | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Machine Shop                                   | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Manufacturing                                  | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Rail yards, tracks and spurs                   | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Vehicle maintenance or repairs                 | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Waste Treatment, Disposal, or Recycling        | <input type="checkbox"/> Yes | <input type="checkbox"/> No |

**Section 2: Building Information and Special Attention Items**

2.1 Are there existing buildings at the Site?

- Yes       No

If yes, list the existing buildings and describe observed uses, construction type, additions, etc.

2.2 Was any evidence observed of loading docks or shipping/receiving bays?

- Yes             No

If yes, describe.

2.3 Was any evidence observed of pits or other similar floor openings or depressions?

- Yes             No

If yes, describe.

2.4 Was any evidence observed of heating systems associated with the building(s)?

- Yes             No

Fuel source:    Natural Gas     Fuel Oil     Electric     Other (describe below)

2.5 Was any evidence observed of mould/water damage or roof leaks in the building(s)?

- Yes             No

If yes, describe.

2.6 Was any evidence noted of odours or other concerns related to indoor air quality?

- Yes             No

If yes, please describe.

2.7 Was any evidence observed of the following suspected asbestos-containing material?

- Building Insulation  Yes  No
- Transite wall board, siding, or roof panels  Yes  No
- Pipe Wrap/Insulation  Yes  No
- Boiler Insulation  Yes  No
- Tank Linings  Yes  No
- Ceiling Tiles  Yes  No
- Floor Tiles  Yes  No
- Plaster  Yes  No
- Expansion Joint  Yes  No
- Thermal Insulation  Yes  No
- Spray Fire-Proofing  Yes  No

If yes to any of the above, describe the location and condition.

2.8 Was any evidence observed of potential PCB-containing equipment, including transformers, florescent light ballasts/capacitors?

- Yes  No

If yes, describe.

2.9 Was any evidence observed of potential lead-containing materials in the building(s), including interior/exterior paint or lead pipes?

- Yes  No

If yes, describe.

2.10 Was any evidence observed of potential ozone-depleting substances (for example, refrigeration or air conditioning equipment in place before 1998)?

- Yes  No

If yes, describe.

2.11 Was any evidence observed of potential UFFI-containing materials in the building(s)?

- Yes
- No

If yes, describe.

2.12 Was any evidence observed of potential major or persistent sources of noise and/or vibration, odours, or electric and magnetic fields (e.g., high voltage power lines)?

- Yes
- No

If yes, describe.

**Section 3: Site Services**

3.1 Was any evidence observed of the following site services (check all that apply)?

- |                             |                                      |  |                               |
|-----------------------------|--------------------------------------|--|-------------------------------|
| Potable Water Supply        | <input type="checkbox"/> Municipal   | <input type="checkbox"/> Private Well  | <input type="checkbox"/> None |
| Wastewater (sewage) system  | <input type="checkbox"/> Municipal   | <input type="checkbox"/> Septic System | <input type="checkbox"/> None |
| Stormwater management ponds | <input type="checkbox"/> Yes         | <input type="checkbox"/> No            |                               |
| Catch basins                | <input type="checkbox"/> Yes         | <input type="checkbox"/> No            |                               |
| Electricity Service         | <input type="checkbox"/> Underground | <input type="checkbox"/> Overhead      | <input type="checkbox"/> None |
| Telecommunication Service   | <input type="checkbox"/> Underground | <input type="checkbox"/> Overhead      | <input type="checkbox"/> None |
| Natural Gas Service         | <input type="checkbox"/> Underground | <input type="checkbox"/> None          |                               |

If applicable, describe on-Site water supply wells (and any treatment systems) and/or septic systems.

3.2 Was any evidence observed of back-up generators or emergency power systems?

- Yes
- No

If yes, describe fuel source.

3.3 Was any evidence observed of potential drainage issues (e.g., floodplain, surface water ponding, flooding, etc.)?

- Yes       No

If yes, describe.

**Section 4: Site Operations**

4.1 Was any evidence observed of hydraulic equipment (e.g., in-ground vehicle hoists, elevators, loading docks, cranes, presses, compactors) on the Site?

- Yes       No

If yes, describe.

4.2 Was any evidence observed of equipment, vehicle or plant floor wash down at the Site?

- Yes       No

If yes, describe.

4.3 Was any evidence observed of fires (e.g., building fires, waste incineration, brush fires, etc.)?

- Yes       No

If yes, describe.

4.4 Was any evidence observed of dust control activities at the Site?

- Yes       No

If yes, list dust control methods and products used.

4.5 Was any evidence observed of salt or any other de-icing chemical storage or application?

- Yes       No

If yes, describe product(s) observed, storage and application practices.

**Section 5: Fuel Storage and Handling**

5.1 Was any evidence observed of existing aboveground or underground fuel storage tanks observed at the Site?

- Yes       No

If yes, describe type and contents, any observations related to construction material, secondary containment, rusting, or surface spills, and any label information regarding capacity, year, spill containment type, etc.

5.2 Was any evidence observed of former aboveground or underground fuel storage tanks removed in the past (e.g., fill or vent pipes, copper fuel lines, boiler room pipe openings)?

- Yes       No

If yes, describe.

5.3 Was any evidence observed of fuel pumps or fueling systems on the Site?

- Yes       No

If yes, describe.

5.4 Was any evidence observed of jerry cans, drums or totes containing fuel/oil/lubricants?

- Yes       No

If yes, describe.

**Section 6: Waste Oils, Chemicals, Liquid Wastes, Solid Wastes**

6.1 Was any evidence observed of waste oils or liquid industrial wastes?

- Yes       No

If yes, describe locations of waste oil tanks or drums, and any evidence of spills or leaks.

6.2 Was any evidence observed of oil-water separators, sumps, and/or floor drains at the Site?

- Yes       No

If yes, describe location, suspected source of incoming liquid, and effluent discharge location.

6.3 Was any evidence observed of chemicals, solvents, unidentified substances, or hazardous materials (e.g. mercury or nuclear gauges) stored or used at the Site, including washbasins?

- Yes       No

If yes, provide an inventory of substances, obtain copies of Safety Data Sheets (SDS) where available, and describe usage and storage practices.

6.4 Was any evidence observed of the following solid waste storage practices?

- |                                |                              |                             |
|--------------------------------|------------------------------|-----------------------------|
| Refuse dumpsters/bins          | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Recycling dumpsters/bins       | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Drums                          | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Waste piles                    | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Illegal dumping                | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Surface impoundment            | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Scrap metals                   | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Batteries (non-household type) | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Other                          | <input type="checkbox"/> Yes | <input type="checkbox"/> No |

If yes to any of the above, describe storage practices and locations on the Site.

6.5 Was any evidence observed of past placement of solid waste or soil (fill, gravel, topsoil, etc.) including stockpiles?

- Yes
- No

If yes, describe suspected purpose (e.g., grading, filling low areas, berms, etc.).

**Section 7: Spills**

7.1 Was any evidence observed of spills (e.g., chemical, oil), discharges of contaminants at the Site, or run-off from adjacent properties, including staining, stressed vegetation, etc.?

- Yes
- No

If yes, describe.

**Section 8: Environmental Compliance**

8.1 Was any evidence observed of contaminant discharges from the Site to the natural environment (e.g., stack emissions, fugitive air emissions)?

- Yes
- No

If yes, describe emissions contaminants, type, and operations.

8.2 Was any evidence observed of existing wells on the Site (e.g., water supply wells, monitoring wells, gas wells)?

- Yes
- No

If yes, describe, including reference to available online well records.

**Section 9: Study Area**

9.1 Who is/are the current occupant(s)/tenant(s) of the adjacent property to the north of the Site?  
Provide a brief description of operations and housekeeping observed during the inspection.

9.2 Who is/are the current occupant(s)/tenant(s) of the adjacent property to the east of the Site?  
Provide a brief description of operations and housekeeping observed during the inspection.

9.3 Who is/are the current occupant(s)/tenant(s) of the adjacent property to the south of the Site?  
Provide a brief description of operations and housekeeping observed during the inspection.

9.4 Who is/are the current occupant(s)/tenant(s) of the adjacent property to the west of the Site?  
Provide a brief description of operations and housekeeping observed during the inspection.

9.5 Was any evidence observed of water bodies, wetlands, or potential environmentally sensitive areas within 30 metres of the Site?

- Yes       No

If yes, describe.

**Section 10: Additional Information**

10.1 Were there any limitations to the inspection (e.g., snow cover, inaccessible areas, inaccessible roof, locked rooms, etc.)?

- Yes       No       Unknown

If yes, describe.

Residential units not accessed during site visit due to ongoing COVID-19 pandemic.

10.2 Do you have any additional comments pertaining to the Site (environmental, operations, historical information)?

- Yes       No

If yes, describe.

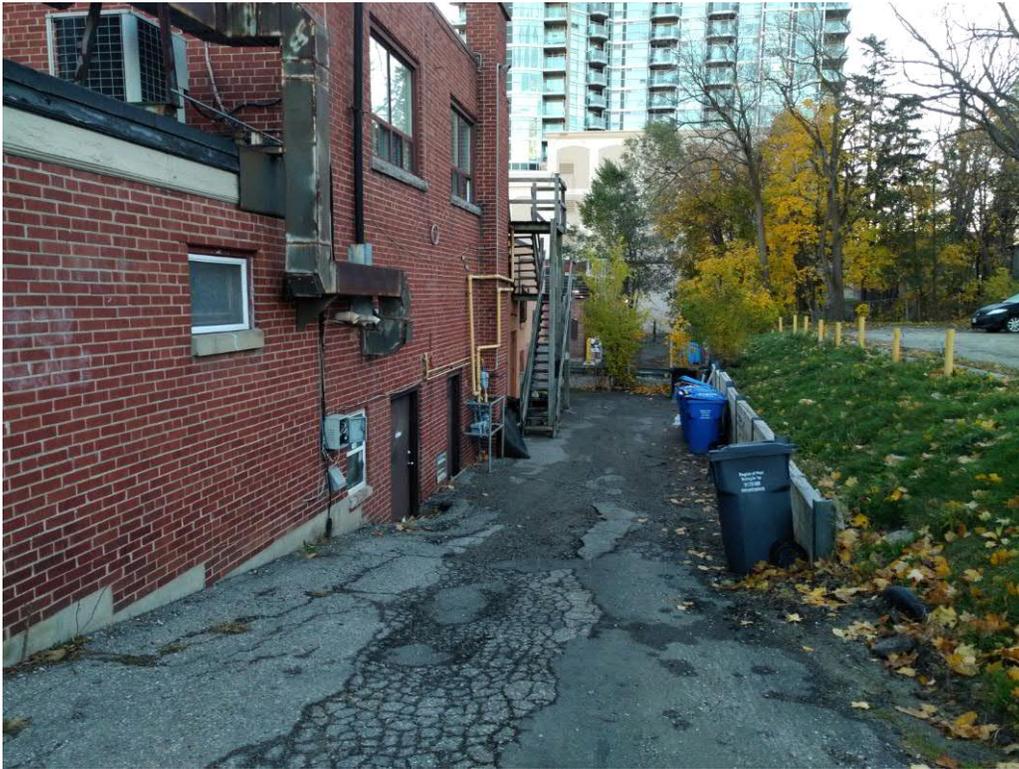

Signature of MTE Representative: 

**Photograph No. 1** – Southwest facing view of the 31-33 George Street property.

**Photograph No. 2** – Northeast facing view of the 31-33 George Street property.

**Photograph No. 3 – South facing view of alleyway and retaining wall separating 31-33 George Street and 28 Elizabeth Street.**

**Photograph No. 4 – East facing view of Nelson Street and northern portion of 31-33 George Street property.**

**Photograph No. 5 – Interior of vacant unit in 31-33 George Street building.**

**Photograph No. 6 – Interior of restaurant unit in 31-33 George Street building.**

**Photograph No. 7** – North facing view of gravel surface parking area on 28 Elizabeth Street property.

**Photograph No. 8** – West facing view of gravel surface parking area and building on 28 Elizabeth Street property.

**Photograph No. 9** – View of MW103-19 and exterior of northwest portion of 28 Elizabeth Street building.

**Photograph No. 10** – Interior of furnace room in basement of 28 Elizabeth Street building.

**Photograph No. 11** – View of coal chute within furnace room of 28 Elizabeth Street building.

**Photograph No. 12** – Interior of typical residential space within 28 Elizabeth Street building (taken in 2019).

**Photograph No. 13** – South facing view of Elizabeth Street from the corner of Elizabeth and Nelson Streets.

**Photograph No. 14** – View of front lawn and dwelling on 24 Elizabeth Street property.

**Photograph No. 15** – View of driveway separating 22 and 24 Elizabeth Street dwellings. Storage buildings are visible in background of photo.

**Photograph No. 16** – View of vent and fill pipes along the northern exterior wall of 22 Elizabeth Street dwelling.

**Photograph No. 17** – North facing view of areas behind 20 and 22 Elizabeth Street dwellings.

**Photograph No. 18** – Northeast facing view of dwellings from 18 Elizabeth Street.

**Photograph No. 19** – North facing view of sloped area to the east of Elizabeth Street dwellings. Chain link fence on the right of the photo represents eastern property line.

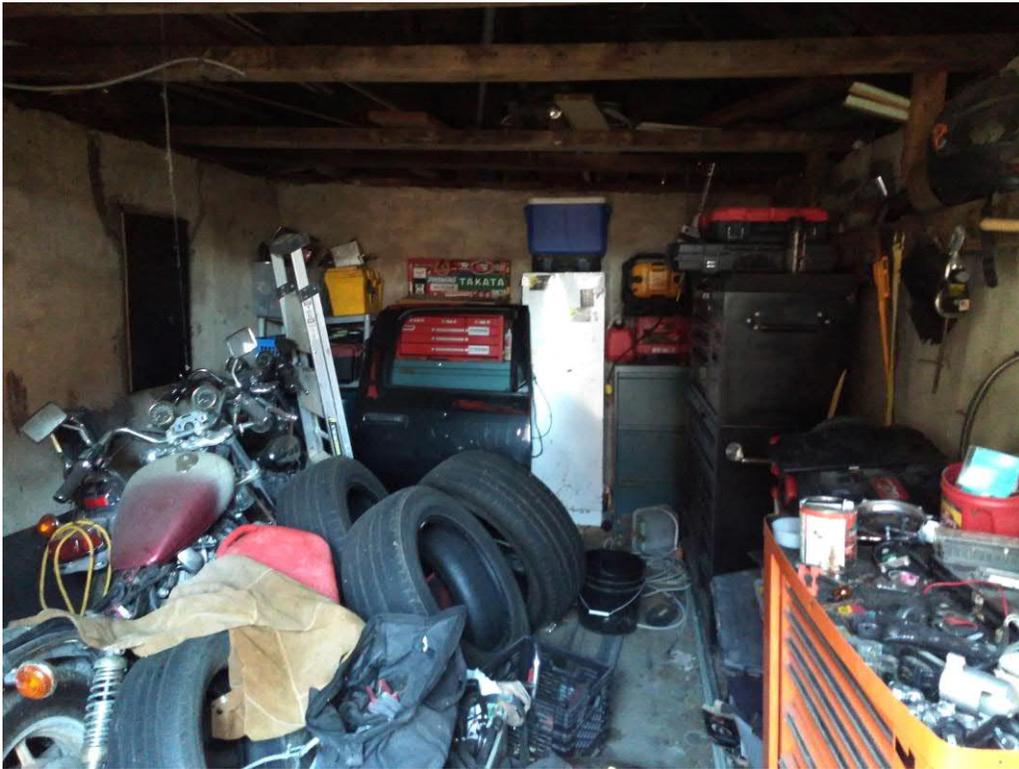

**Photograph No. 20** – View of basement in 18 Elizabeth Street dwelling.

**Photograph No. 21** – View of empty fuel oil tank in basement of 22 Elizabeth Street dwelling.

**Photograph No. 22** – View of basement in 24 Elizabeth Street dwelling.

**Photograph No. 23** – Interior of storage building to the east of 22 and 24 Elizabeth Street dwellings.

**Photograph No. 24** – Southeast facing view of transformer building to the south of 18 Elizabeth Street.

**Photograph No. 25** – North facing view of ongoing development property to the north of the Site, across Nelson Street.

**Photograph No. 26** – West facing view of adjoining commercial properties to the east of the Site, from George Street.

**Photograph No. 27** – West facing view of adjoining commercial property and southern wall of 31-33 George Street building, from George Street.

## **Current and Past Uses of the Phase One Property**

**"Table of current and past uses of the phase one property" (Refer to clause 16(2)(b), Schedule D, O.Reg. 153/04)**

Year	Name of owner	Description of property use	Property use	Other observations from aerial photographs, fire insurance plans, etc.
<b>PIN 14123-0085 (LT) (18 Elizabeth Street North)</b>				
1822 – 1822	William Wood	Undeveloped or agricultural land	Agriculture or other use	Chain of Title – Crown Patent
1822 – 1830	Alpheus Kemphill	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1830 – 1831	Benjamin Monger	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1831 – 1867	John Bagwell	Undeveloped or agricultural land	Agriculture or other use	Chain of Title 1857 Town Plan – depicts the property as vacant.
1867 – 1868	Timothy Wilcox	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1868 – 1875	James Brown	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1875 – 1913	Robert Haggert	Undeveloped or agricultural land	Agriculture or other use	Chain of Title 1894 FIP – depicts the property as vacant.
1913 – 1914	John Hodgson	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1914 – 1941	Thomas Shields	Undeveloped or agricultural land	Agriculture or other use	Chain of Title 1917 and 1940 FIPs – depict the property as vacant.
1941 – 1945	Agnes Emmons	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1945 – 1968	Winnifred Hiscock & Edwin Hiscock	Residential dwelling	Residential use	Chain of Title 1946 and 1966 aerial photographs – residential dwelling observed

Year	Name of owner	Description of property use	Property use	Other observations from aerial photographs, fire insurance plans, etc.
1968 – 1989	Sidney Chambers & Lillian C. Chambers	Residential dwelling	Residential use	Chain of Title 1971 FIP – residential dwelling depicted City Directories – residential 1982 OBM and 1986 aerial photograph – residential dwelling observed
1989 – 2008	The Incumbent and Church Wardens of Christ Church (Anglican)	Residential dwelling	Residential use	Chain of Title City Directories – residential 1995 and 2005 aerial photographs – residential dwelling observed
2008 – 2015	The Incumbent and Church Wardens of Christ Church, Brampton	Residential dwelling	Residential use	Chain of Title City Directories – residential
2015 – 2016	Ashley Maria Andrea Melchionna	Residential dwelling	Residential use	Chain of Title
2016 – 2017	Mario Salazar	Residential dwelling	Residential use	Chain of Title City Directories – residential
2017 – 2021	Malvina Shkolyar	Residential dwelling	Residential use	Chain of Title 2018 aerial photograph – residential dwelling observed 2019 Phase I ESA site visit – residential dwelling observed.
2021 – present	Elizabeth/George Holdings Inc.	Residential dwelling	Residential use	Chain of Title Phase One ESA site visit and interview – residential dwelling observed.
<b>PIN 14123-0084 (LT) (20 Elizabeth Street North)</b>				
1822 – 1822	William Wood	Undeveloped or agricultural land	Agriculture or other use	Chain of Title – Crown Patent
1822 – 1830	Alpheus Kempfill	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1830 – 1831	Benjamin Monger	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1831 – 1832	John Bagwell	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1832 – 1834	Benjamin Monger	Undeveloped or agricultural land	Agriculture or other use	Chain of Title

Year	Name of owner	Description of property use	Property use	Other observations from aerial photographs, fire insurance plans, etc.
1834 – 1846	Joseph Wright	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1846 – 1848	George Wright	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1848 – 1879	Peter Ker	Undeveloped or agricultural land	Agriculture or other use	Chain of Title 1857 Town Plan – depicts the property as vacant.
1879 – 1902	John Haggert	Undeveloped or agricultural land	Agriculture or other use	Chain of Title 1894 FIP – depicts the property as vacant.
1902 – 1913	Robert Haggert	Undeveloped or agricultural land	Agriculture or other use	Chain of Title
1913 – 1929	George Ostrander	Residential dwelling	Residential use	Chain of Title 1917 FIP – depicts a residential dwelling at the property.
1929 – 1939	John Hamilton	Residential dwelling	Residential use	Chain of Title
1939 – 1945	Pearl Sparling	Residential dwelling	Residential use	Chain of Title 1940 FIP – depicts a residential dwelling at the property.
1945 – 1963	Thomas H. Heath	Residential dwelling	Residential use	Chain of Title 1946 aerial photograph – residential dwelling observed.
1963 – 1965	Henry Shepherd & Mildred Shepherd	Residential dwelling	Residential use	Chain of Title
1965 – 1974	C. Herbert Jackson & L. Georgina Jackson	Residential dwelling	Residential use	Chain of Title 1971 FIP – depicts a residential dwelling at the property City Directories – residential 1966 and 1974 aerial photographs – residential dwelling observed.
1974 – 1985	Robert C. Carney	Residential dwelling	Residential use	Chain of Title City Directories – residential 1974 aerial photograph and 1982 OBM – residential dwelling observed.
1985 – 1985	Harm Krol	Residential dwelling	Residential use	Chain of Title

Year	Name of owner	Description of property use	Property use	Other observations from aerial photographs, fire insurance plans, etc.
1985 – 2002	511691 Ontario Limited	Residential dwelling	Residential use	Chain of Title City Directories – residential 1986 and 1995 aerial photographs – residential dwelling observed.
2002 – 2018	1019189 Ontario Inc.	Residential dwelling	Residential use	Chain of Title 2005 and 2018 aerial photographs – residential dwelling observed.
2018 – 2021	Maria Shcolyar	Residential dwelling	Residential use	Chain of Title 2019 Phase I ESA site visit – residential dwelling observed.
2021 – present	Elizabeth/George Holdings Inc.	Residential dwelling	Residential use	Chain of Title Phase One ESA site visit and interview – residential dwelling observed.

## **PCA Summary Table and Areas of Potential Environmental Concern**

**18, 20, 22, 24, 28 Elizabeth Street North and 31 & 33 George Street North, Brampton, ON**  
**PCA SUMMARY TABLE**

PCA#	PCA Location	MECP Potentially Contaminating Activity	Basis for PCA	PCA Results in an APEC	APEC #	Rationale
<b>On-Site PCAs</b>						
PCA#1	Entire Phase One Property	30. Importation of Fill Material of Unknown Quality	<ul style="list-style-type: none"> <li>Previous investigations identified fill as the upper soil unit on the Site.</li> <li>The 1857 Brampton Map indicates two former buildings were located on present day 31 &amp; 33 George Street and one former building on present day 24 Elizabeth Street North. It is unknown if fill materials would have been imported to backfill the buildings following demolition.</li> </ul>	Yes	APEC 1	On-Site PCA
PCA#2	18-24 Elizabeth Street North portion of the Site	28. Gasoline and Associated Products Storage in Fixed Tanks	<ul style="list-style-type: none"> <li>Based on the age of the current on-Site dwellings at 18, 20, and 24 Elizabeth Street, fuel oil may have historically been stored and used to heat these buildings.</li> <li>An empty fuel oil AST was observed in the basement of the dwelling at 22 Elizabeth Street North.</li> </ul>	Yes	APEC 2	On-Site PCA
PCA#3	28 Elizabeth Street North	Other – Former coal use and storage	<ul style="list-style-type: none"> <li>A former coal chute was observed in the basement boiler room of 28 Elizabeth Street North.</li> </ul>	Yes	APEC 3	On-Site PCA
<b>Off-Site PCAs Resulting in an APEC</b>						
PCA#4a	23 George Street North (east adjacent)	31. Ink Manufacturing, Processing and Bulk Storage	<ul style="list-style-type: none"> <li>A Scott's manufacturing record identified 23 George Street North as a property with various printing and graphic design services.</li> </ul>	Yes	APEC 4a	Higher concern PCA located on an adjacent property to the east.
PCA#4b		34. Metal Fabrication	<ul style="list-style-type: none"> <li>23 George Street North was observed on the 1940 FIP as a Machine Shop.</li> </ul>	Yes	APEC 4b	Higher concern PCA located on an adjacent property to the east.
PCA#5a	7-11 George Street North (southeast adjacent)	28. Gasoline and Associated Products Storage in Fixed Tanks	<ul style="list-style-type: none"> <li>A Brownfield Environmental Site Registry record indicated 11 George Street North previously had 730m<sup>3</sup> of hydrocarbon impacted soil removed from the property in 2008.</li> </ul>	Yes	APEC 5a	Higher concern PCA located on an adjacent property to the east.
PCA#5b		29. Glass Manufacturing	<ul style="list-style-type: none"> <li>The property located at 7-9 George Street North was observed on the 1971 FIP as an eyewear manufacturing with washing, polishing and grinding.</li> </ul>	Yes	APEC 5b	Higher concern PCA located on an adjacent property to the east.
PCA#5c		34. Metal Fabrication	<ul style="list-style-type: none"> <li>The property located at 7-9 George Street North was observed on the 1971 FIP as an eyewear manufacturing with washing, polishing and grinding.</li> <li>This property was identified as a hazardous waste generator of light fuels (2008-2009).</li> </ul>	Yes	APEC 5c	Higher concern PCA located on an adjacent property to the east.
PCA#5d		51. Solvent Manufacturing, Processing and Bulk Storage	<ul style="list-style-type: none"> <li>11 George Street North was identified as a hazardous waste generator of aliphatic solvents and oil skimmings &amp; sludges (1986-1990, 1992-1998).</li> </ul>	Yes	APEC 5d	Higher concern PCA located on an adjacent property to the east.
PCA#6	8-10 Elizabeth Street North (south adjacent)	18. Electricity Generation, Transformer and Power Stations	<ul style="list-style-type: none"> <li>8-10 Elizabeth Street North was observed on the FIPs (1894-1971) and during the Phase One Site visit to include a hydroelectric station.</li> </ul>	Yes	APEC 6	Higher concern PCA located on an adjacent property to the south.

PCA#	PCA Location	MECP Potentially Contaminating Activity	Basis for PCA	PCA Results in an APEC	APEC #	Rationale
PCA#7a	14 Nelson Street West (25m northeast)	9. Coal Gasification	<ul style="list-style-type: none"> <li>A historical coal gasification plant was observed on the 1917 FIP. Records from the Inventory of Coal Gasification Plant Waste Sites indicate that the plant was present from 1888-1917.</li> </ul>	Yes	APEC 7a	Higher concern PCA located on nearby property to the northeast.
PCA#7b		34. Metal Fabrication	<ul style="list-style-type: none"> <li>A Scott's Manufacturing record identified 14 Nelson Street West as a manufacturer of material handling equipment.</li> </ul>	Yes	APEC 7b	Higher concern PCA located on nearby property to the northeast.

Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	<ul style="list-style-type: none"> <li>Former address 6 Park Street (180m west) was observed on the 1971 FIP with potential truck repair activities.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (west) with respect to the inferred groundwater flow direction (easterly).
PCA#47	79 Queen Street West	34. Metal Fabrication	<ul style="list-style-type: none"> <li>79 Queen Street West was listed as a pump repair shop.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (southeast) with respect to the inferred groundwater flow direction (easterly).
PCA#48a	14 Main Street North (160m southeast)	28. Gasoline and Associated Products Storage in Fixed Tanks	<ul style="list-style-type: none"> <li>14 Main Street North (185m east) was identified as a hazardous waste generator of light fuels (2005).</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (east) with respect to the inferred groundwater flow direction (easterly).
PCA#48a		39. Paints Manufacturing, Processing and Bulk Storage	<ul style="list-style-type: none"> <li>18 Main Street North was identified as a “paints” shop in FIP</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (east) with respect to the inferred groundwater flow direction (easterly).
PCA#49	1 Theatre Lane	28. Gasoline and Associated Products Storage in Fixed Tanks	<ul style="list-style-type: none"> <li>1 Theatre Lane (190m east) was identified as a hazardous waste generator of pathological waste, waste oils/sludges (petroleum based) and other specified inorganic sludges, slurries or solids (2021)</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (east) with respect to the inferred groundwater flow direction (easterly).
PCA#50a	45 Railroad Street	28. Gasoline and Associated Products Storage in Fixed Tanks	<ul style="list-style-type: none"> <li>45 Railroad Street (190m northwest) was identified on the Brownfield Environmental Site Registry as a RSC property with 87500 litres of groundwater contaminated with Metals, PAHs, PHCs and VOCs removed from the property in 2017</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#50b		34. Metals Fabrication	<ul style="list-style-type: none"> <li>45 Railroad Street (190m northwest) was identified on the Brownfield Environmental Site Registry as a RSC property with 5130m<sup>3</sup> of soil contaminated with Metals, PAHs, EC/SAR, removed from the Site in 2017.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#51	35 Railroad Street	28. Gasoline and Associated Products Storage in Fixed Tanks	<ul style="list-style-type: none"> <li>35 Railroad Street (210m northwest) was observed on the 1971 FIP as a landscaping contractor yard with one UST.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#52a	1 Main Street South	37. Operation of Dry Cleaning Equipment (where chemicals are used)	<ul style="list-style-type: none"> <li>1 Main Street South (210m southeast) was observed on the 1917 FIP as a potential dry cleaner.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (southwest) with respect to the inferred groundwater flow direction (easterly).

PCA#	PCA Location	MECP Potentially Contaminating Activity	Basis for PCA	PCA Results in an APEC	APEC #	Rationale
PCA#52b		28. Gasoline and Associated Products Storage in Fixed Tanks	<ul style="list-style-type: none"> <li>1 Main Street South (210m southeast) was identified as a hazardous waste generator of light fuels and inorganic wastes (2019)</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (southwest) with respect to the inferred groundwater flow direction (easterly).
PCA#53a	2 Wellington Street West	27. Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	<ul style="list-style-type: none"> <li>Former addresses 24, 35 and 39 Main Street South were observed to include vehicle repair garages and multiple underground fuel storage tanks on the 1940 FIP</li> <li>2 Wellington Street West (205m southeast) was identified as a hazardous waste generator of one or more of paint/pigment/coating residues, petroleum distillates, other inorganic acid wastes, oil skimmings &amp; sludges, waste oils &amp; lubricants, organic laboratory chemicals, inorganic laboratory chemicals, waste compressed gases, photoprocessing wastes, and alkaline wastes – other metals. (1992-2021)</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (southeast) with respect to the inferred groundwater flow direction (easterly).
PCA#53b		28. Gasoline and Associated Products Storage in Fixed Tanks		No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (southeast) with respect to the inferred groundwater flow direction (easterly).
PCA#53c		31. Ink Manufacturing, Processing and Bulk Storage		No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (southeast) with respect to the inferred groundwater flow direction (easterly).
PCA#53d		39. Paints Manufacturing, Processing and Bulk Storage		No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (southeast) with respect to the inferred groundwater flow direction (easterly).
PCA#54a	151 Main Street North	27. Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	<ul style="list-style-type: none"> <li>151 Main Street North (225m northeast) was observed on the 1971 FIP as a garage with automotive repairs and one UST.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (northeast) with respect to the inferred groundwater flow direction (easterly).
PCA#54b		28. Gasoline and Associated Products Storage in Fixed Tanks		No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (northeast) with respect to the inferred groundwater flow direction (easterly).
PCA#55a	150 Main Street North	27. Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	<ul style="list-style-type: none"> <li>150 Main Street North (240m northeast) was observed on the 1971 FIP as an auto service station and one UST.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (northeast) with respect to the inferred groundwater flow direction (easterly).
PCA#55b		28. Gasoline and Associated Products Storage in Fixed Tanks		No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (northeast) with respect to the inferred groundwater flow direction (easterly).
PCA#56	62 Park Street	Other – Former coal use and storage	<ul style="list-style-type: none"> <li>62 Park Street (240m northwest) was observed on the 1940 FIP as multiple coal and wood sheds along the rail line.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#57a	56-60 Mill Street North	45. Pulp, Paper and Paperboard Manufacturing and Processing	<ul style="list-style-type: none"> <li>56-60 Mill Street North (240m northwest) was identified in the 1894, 1917 and 1940 FIPs as a ledger manufacturing facility with paper mill and machine shop with a coal shed.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (northwest) with respect to the inferred groundwater flow direction (easterly).
PCA#57b		Other – Former coal use and storage		No	N/A	
PCA#58a	41-53 Railroad Street and 49 Mill Street North	8. Chemical Manufacturing, Processing and Bulk Storage	<ul style="list-style-type: none"> <li>41-53 Railroad Street and 49 Mill Street North (240m northwest) was observed on the observed on the 1971 FIP as an office supplies manufacturing facility with a paper mill, machine shop, metal working facility, plating facility, fuel oil storage tank, chemical storage and a coal shed.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#58b		28. Gasoline and Associated Products Storage in Fixed Tanks		No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#58c		33. Metal Treatment, Coating, Plating and Finishing		No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.

PCA#	PCA Location	MECP Potentially Contaminating Activity	Basis for PCA	PCA Results in an APEC	APEC #	Rationale
PCA#58d		34. Metal Fabrication		No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#58e		45. Pulp, Paper and Paperboard Manufacturing and Processing		No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#58f		Other – Former coal use and storage		No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#59a	11 Church Street West (240m north)	27. Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	<ul style="list-style-type: none"> <li>The 1940 FIP depicted a repair garage on part of the larger overall current property of 11 Church Street West</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#59b		28. Gasoline and Associated Products Storage in Fixed Tanks	<ul style="list-style-type: none"> <li>The 1940 FIP depicted one UST on the larger overall current property of 11 Church Street West</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#59c		Other – Former coal use and storage	<ul style="list-style-type: none"> <li>The 1940 FIP depicted coal sheds on the larger overall current property of 11 Church Street West</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site.
PCA#60	39 Queen Street West	37. Operation of Dry Cleaning Equipment (where chemicals are used)	<ul style="list-style-type: none"> <li>39 Queen Street West (150m southeast) was observed on FIPs as a potential dry cleaner.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (southeast) with respect to the inferred groundwater flow direction (easterly).
PCA#61	37 Queen Street West	31. Ink Manufacturing, Processing and Bulk Storage	<ul style="list-style-type: none"> <li>37 Queen Street West (155m southeast) was observed on FIPs as a former printer.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (southeast) with respect to the inferred groundwater flow direction (easterly).
PCA#62	13 Elizabeth Street South (200m south)	28. Gasoline and Associated Products Storage in Fixed Tanks	<ul style="list-style-type: none"> <li>13 Elizabeth Street South was listed as generation of waste oils/sludges (petroleum based) by Alectra Utilities)</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (southeast) with respect to the inferred groundwater flow direction (easterly).
PCA#63	27 Main Street North	34. Metal Fabrication	<ul style="list-style-type: none"> <li>Formerly 40 Main Street North was listed as a tin smith.</li> </ul>	No	N/A	PCA was not considered to result in an APEC due to its distance away from the Site and its location (southeast) with respect to the inferred groundwater flow direction (easterly).

"Table of areas of potential environmental concern" (Refer to clause 16(2)(a), Schedule D, O. Reg. 153/04)

Area of Potential Environmental Concern <sup>1</sup>	Location of Area of Potential Environmental Concern on Phase One Property	Potentially Contaminating Activity <sup>2</sup>	Location of PCA (on-site or off-site)	Contaminants of Potential Concern <sup>3</sup>	Media potentially Impacted (ground water, soil and/or sediment)
APEC 1 Fill Quality	Entire Phase One Property	30. Importation of Fill Material of Unknown Quality	On-Site	Metals As, Sb, Se Hg, CN-, B-HWS PHCs BTEX	Soil
APEC 2 Potential former fuel oil use and storage	Western portion of the Phase One Property	28. Gasoline and Associated Products Storage in Fixed Tanks	On-Site	PHCs BTEX	Soil Groundwater
APEC 3 Former coal use and storage	Northwestern portion of the Phase One Property	Other – Former coal use and storage	On-Site	Metals As, Sb, Se Hg PAHs	Soil Groundwater
APEC 4a Former printing and graphic design building at 23 George Street North	Eastern portion of the Phase One Property	31. Ink Manufacturing, Processing and Bulk Storage	Off-Site	Metals As, Sb, Se BTEX VOCs	Groundwater
APEC 4b Former machine shop at 23 George Street North		34. Metal Fabrication	Off-Site	Metals As, Sb, Se PHCs BTEX VOCs	Groundwater
APEC 5a Hydrocarbon impacted soil at 11 George Street North – potential fuel storage	Southeastern portion of the Phase One Property	28. Gasoline and Associated Products Storage in Fixed Tanks	Off-Site	PHCs BTEX	Groundwater
APEC 5b Former glass eyewear manufacturer		29. Glass Manufacturing	Off-Site	Metals As, Sb, Se PHCs BTEX	Groundwater
APEC 5c Former glass eyewear manufacturer		34. Metal Fabrication	Off-Site	Metals As, Sb, Se PHCs BTEX VOCs	Groundwater
APEC 5d Former glass eyewear manufacturer		51. Solvent Manufacturing, Processing and Bulk Storage	Off-Site	PHCs BTEX VOCs	Groundwater

Area of Potential Environmental Concern <sup>1</sup>	Location of Area of Potential Environmental Concern on Phase One Property	Potentially Contaminating Activity <sup>2</sup>	Location of PCA (on-site or off-site)	Contaminants of Potential Concern <sup>3</sup>	Media potentially Impacted (ground water, soil and/or sediment)
APEC 6 Hydroelectric station at 8-10 Elizabeth Street North	Southern portion of the Phase One Property	18. Electricity Generation, Transformer and Power Stations	Off-Site	Metals As, Sb, Se PCBs PHCs BTEX VOCs	Groundwater
APEC 7a Former coal gasification plant at 14 Nelson Street West	Northeastern portion of the Phase One Property	9. Coal Gasification	Off-Site	Metals As, Sb, Se Hg, CN- PAHs ABNs PHCs BTEX VOCs	Groundwater
APEC 7b Former material handling equipment manufacturer at 14 Nelson Street West		34. Metal Fabrication	Off-Site	Metals As, Sb, Se PHCs BTEX VOCs	Groundwater
APEC 7c Former generation of photoprocessing wastes at 14 Nelson Street West		31. Ink Manufacturing, Processing and Bulk Storage	Off-Site	Metals As, Sb, Se BTEX VOCs	Groundwater
APEC 8 Former auto related business at 27 George Street north	Eastern portion of the Phase One Property	27. Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site	Metals As Sb, Se PHCs BTEX VOCs	Groundwater
APEC 9 Former manufacturer of prefabricated building components at 37 George Street North	Northeastern portion of the Phase One Property	34. Metal Fabrication	Off-Site	Metals As Sb, Se PHCs BTEX VOCs	Groundwater

*Notes:*

1 - Areas of potential environmental concern means the area on, in or under a phase one property where one or more contaminants are potentially present, as determined through the phase one environmental site assessment, including through,

- (a) identification of past or present uses on, in or under the phase one property, and
- (b) identification of potentially contaminating activity.

2 - Potentially contaminating activity means a use or activity set out in Column A of Table 2 of Schedule D that is occurring or has occurred in a phase one study area

3 - When completing this column, identify all contaminants of potential concern using the Method Groups as identified in the "Protocol for in the Assessment of Properties under Part XV.1 of the Environmental Protection Act, March 9, 2004, amended as of July 1, 2011, as specified below:

**List of Method Groups:**

ABNs	PCBs	Metals	Electrical Conductivity
CPs	PAHs	As, Sb, Se	Cr (VI)
1,4-Dioxane	THMs	Na	Hg
Dioxins/Furans, PCDDs/PCDFs	VOCs	B-HWS	Methyl Mercury
OCs	BTEX	Cl-	Low or high pH,
PHCs	Ca, Mg	CN-	SAR

4 - When submitting a record of site condition for filing, a copy of this table must be attached
